

# New Woodside Health and Care Centre News

## New Health and Care Centre Project Update

The new Woodside Health and Care Centre development is still on schedule for completion and 'hand over' from the contractor by the end of 2018. The precise dates for services to be operational within the new facility will be confirmed in due course. The work being progressed presently are the internal walls, pipes, heating and electrics with the internal 'finishes' of the flooring, fitments, plaster board etc scheduled for later in the year. After the building is completed the system and services will be fully tested and the building cleaned and furnished to ensure a smooth transfer for patients, staff and visitors to the new centre. The new address for Woodside Health and Care Centre is 891 Garscube Road, Glasgow, G20 7ER. The new telephone numbers and transfer date will be widely publicised when available.

## Getting to the New Centre and Campus Facilities

One of the main reasons the Garscube Road/Hinshaw Street/Doncaster Street site was chosen for the new Woodside Health and Centre was its close proximity and access to the main Maryhill Road bus corridor with frequent, reliable bus routes and services.

**The bus routes on Maryhill Road are:**  
**No 60** Easterhouse – Clydebank Bus Station  
**No 60A** Easterhouse – Milgavie  
**No 61** Sandyhills – Summerston  
**No 17** Glasgow (Central Station) - Duntocher  
**No C8/10** Buchanan Bus Station - Balfron

**And the bus routes on Garscube Road/Firhill Road are:**  
**M3** Glasgow City Centre - Milton

The Underground stations at St Georges Cross and Kelvinbridge are both around 1 kilometer (12 – 15 min walk) from the new Woodside Health and Care Centre for the more able patients and service users. The Cycle Route 754 – Forth and Clyde Canal (part of Cycle Route 7) is the 'greener' option to access the new Centre for the active and fit, however it is also a lovely option for a stroll on a sunny day for all the family.

The campus itself has 48 staff/public car parking spaces and a number of 'on road' staff/public spaces (outwith peak travel time) surrounding the development. Each GP Practice will be allocated an 'on call' parking space and there are two 'drop off' zones, one at the main entrance on Doncaster Street and the other at Hinshaw Street which should ease the flow of traffic. We will also have an ambulance/emergency bay, an electric car charging bay, eight disabled car spaces and a bike shelter.

## Making an Entrance

Bespoke Atelier, a local surface design studio working across the fields of interior design, public art and architecture has created a series of design interventions for the new Woodside Health and Care Centre. The first of these artworks is a series of patterned concrete panels for the three entrances of the new Centre.

Working with the local community and staff from the Health Centre they created a series of patterns for external and internal application around the new C The precise dates for services to be operational within the new facility will be confirmed in due course.' entre inspired by traditional textile printing methods. Marion Parola from Bespoke Atelier ran workshops with groups of all ages from a wide variety of cultural backgrounds from China, Pakistan to India. It became clear that each entrance needed its own identity – 'it's story' - whilst having a visual connection to the other entrance spaces. Bespoke Atelier wanted to create a design which had recognisable

Above: Pictures from the workshops with community groups.

A geometric 'key pattern' which was inspired by the manufacturing industries from the Forth & Clyde Canal was created. The modular patterns can be rotated in any direction to create a larger composition and interesting pattern permutations, a design concept which has been adapted to complement the fabrication process.

The bold graphic designs inspired by the workshops were then injected into the 'key pattern' to create an artwork for each entrance of the Centre.

Silicon moulds were manufactured in a factory in Germany and the concrete was poured over the moulds leaving the imprint of the patterns on the surface of each of the panel. Lights will illuminate the panels and create a warm welcome at each of the entrances.

Patterns inspired by the local architecture: The Mackintosh Church, Cedar Court Flats at St George's Road, the old Astoria Cinema and other art deco features from the Woodside area are featured at the main entrance on Garscube Road/Doncaster Street

The repeat below is inspired by the fauna and flora found on the canal tow path and is on panels at the Hinshaw Street/Garscube Road entrance.

At the Woodside Day Centre entrance at 20 Hinshaw Street, Glasgow G20 7DW, the pattern was inspired by the products of the canal industries, from breweries and distilleries to mills and woodworks.

## Specialist Children's Services at Woodside

North Specialist Children's Services are moving into the new Health and Care Centre at Woodside. Both the Community Paediatric Team and the Child and Adolescent Mental Health Services have been working in the North of Glasgow for many years, being originally located in the old Possilpark Health Centre, Glenfarg Suite, and presently in temporary accommodation in William Street and Callander Street.

The multi-disciplinary teams are looking forward to working together once again in the new building at the heart of the Community. The Specialist Services that will be working in the new building are:-

**Child and Adolescent Mental Health Service (CAMHS),** who will offer the following services

- Family Work
- Individual therapy
- Group work
- Psychopharmacological intervention
- Multi agency consultations
- Staged interventions
- Liaison with other agencies
- Emergency and unplanned care

**Specialist Community Paediatric Team (SCPT),** who will offer the following services -

- Community Paediatrics - Child developmental assessment
- Speech & Language Therapy
- Autism Diagnostic Services
- Occupational Therapy
- Physiotherapy
- Specialist Children's Nursing
- Vision clinics

The services offered operate from Monday to Friday 9am to 5pm. Telephone contact details will be issued in the near future.
