Actions

1. Glasgow City IJB Membership Update

Craig Cowan presented a report providing an update on several changes to the membership of Glasgow City Integration Joint Board (GCIJB).

The Integration Joint Board:

- a) Noted the appointments outlined in section 3 of the report; and
- b) Noted the vacant positions as outlined in section 4 of the report.

2. Declarations of Interest

There were no declarations of interest.

3. Apologies for Absence

Apologies for absence were noted as above.

4. Minutes

The minutes of 29th January 2025 were approved subject to amendment at Item 1 – Declarations of Interest:

Dr John O'Dowd advised that he declared a connection to Item No. 9 and not Item No. 7 and asked that the minute is corrected to reflect this.

Officers

5. Matters Arising

Item No. 9 – Implementation of Alcohol and Drug Recovery Service (ADRS) Review and Medication Assisted Treatment (MAT Standards) - Shared Care Model:

The Local Authority Trade Union Representative requested an update on the new Shared Care Model due to ongoing workload concerns. Officers advised that this is still an open legal tender and therefore it is not possible to provide further comment at this stage. Officers continue to engage with GPs and have been responding to any issues raised.

6. Integration Joint Board Rolling Action List

Craig Cowan advised that there are no open actions on the IJB Rolling Action List.

7. Chief Officer Update

Pat Togher provided an update, which is available on the HSCP [website](#).

Members highlighted the delayed discharge figures and requested a breakdown of short term and long term patients and questioned where Officers can make a noticeable impact in bringing the numbers down. Officers advised that the focus is on delays of over 200 days which are often very complex but agreed to circulate the breakdown of patients requested. can be shared outwith the meeting. Regular meetings take place with Acute colleagues on delays and Adults with Incapacity (AWI) delays are a contributory factor as they are bound by legislation. Commissioning solutions are being explored for more complex delays where multiple rejections have been received from care homes.

In relation to The Thistle, Members questioned if there continues to be disquiet in the local community. Officers advised that there is regular contact with Police Scotland, the community and businesses in the area to mitigate any issues raised and to familiarise people with the vision of The Thistle. An evaluation is currently underway.

8. IJB Financial Allocations and Budgets 2025-2026

Margaret Hogg presented a report outlining the revenue budget for Glasgow City Integration Joint Board for 2025-26 and the budget available for services commissioned from Glasgow City Council and NHS Greater Glasgow & Clyde.

Officers highlighted that the IJB has £82.865m which requires to be funded in 2025-26. The funding offered from Partners and anticipated funds from Scottish Government total £40.382m. This results in a funding shortfall of £42.483m. The funding gap of £42.483m is excluding the impact of accelerated home office decisions. Approved savings to date total £5.165m, leaving a balance of £37.318m to be considered by the IJB.

The Council offer letter confirms the Council's commitment to underpin the continuing pressure in relation to asylum and that funding plans are in place based on current forecasts.

The implications of not setting a balanced budget were emphasised by the Interim Chief Finance Officer and the position of the Interim Chief Social Work Officer was also highlighted in terms of the significant risks associated with not approving a budget which would result in an inability to prioritise those people with the highest level of need.

The Trade Union Representatives (NHS GG&C and Local Authority) put on record their concerns regarding reductions in the staffing establishment and the projections for future years and the disproportionate impact on those living in poverty. They suggested a necessity to take a different direction as an IJB. The Chief Officer agreed that there will be a requirement for a shift to focus on delegated functions and statutory responsibilities in future years.

Councillor Jon Molyneux, seconded by Councillor Lana Reid-McConnell proposed the following motion, which was circulated to IJB Members.

Motion:

The Integration Joint Board:

- Notes the Budget report and thanks officers for their work to develop a proposed budget, however, is deeply concerned by the impacts of many of the proposed savings and also by the significant financial risks which will remain even if a balanced budget is agreed.
- Considers that the most significant ongoing risks stem from decisions of the UK Government, in relation to national insurance (including the impact on commissioned services) and asylum decisions, as well as the impact of social security cuts.
- Notes that the Council and Health Board are taking inconsistent approaches to dealing with the residual element of national insurance changes which are not currently being adequately compensated by the UK Government.
- Believes that the UK Government should fully compensate all public services across the UK for their additional costs arising from ENICs changes.
- Believes that if funding exists within the Health Board to offer a recurring sustainability payment to cover the residual ENICs element, that this funding would be better put to use avoiding the need to take the highest impact savings on the health side, such as those impacting health improvement and community mental health services, which are likely to increase pressure on acute services.
- Agrees:
 - To direct both partners to write to the Chancellor of the Exchequer ahead of the Spring Statement demanding full compensation for cost pressures arising from changes to national insurance.
 - To write to the Health Board asking for the recurring funding earmarked for its residual unfunded national insurance liabilities to instead be put to avoiding the need for IJB savings.
 - To direct both partners to write to the Scottish Government to insist that it reverses its 5.48% cut to the enhanced mental health framework in Greater Glasgow, amounting to £1.6 million, to help alleviate some of the sharpest pressures in mental health services
 - To continue the setting of the IJB Budget to a future meeting, provisionally to be scheduled on 31 March, to allow for consideration of any additional information from the Spring Statement and receipt of responses from the Chancellor, the Health Board and Scottish Government.

Councillor Allan Casey, seconded by Councillor Chris Cunningham proposed the following amendment to the motion above.

Amendment:

proposals included within this paper at section 7 and as amended per these recommendations.

9. Medium Term Financial Outlook 2025-2028

Margaret Hogg presented a report outlining the Medium Term Financial Outlook (MTFO) for the Integration Joint Board (IJB) and has been prepared to support financial planning and delivery of the IJB's Strategic Plan.

Officers highlighted that the IJB's Strategic Plan sets out the ambitions of Glasgow City IJB. However, it is important that this is set within the context of the funding which is available to support delivery, and medium-term financial planning is an important part of the strategic planning process. The MTFO for 2025-2028 has been developed to support the delivery of the 2023-2026 Strategic Plan and the updated plan which is being developed.

Audit Scotland recognise that IJBs are facing significant financial sustainability challenges as cost pressures, demand and needs for service continue to increase and become more complex. It also recommends that medium-term financial plans are kept updated to reflect all known cost pressures, to support informed decision-making on the delivery of sustainable service provision and reform in the future.

Members asked what the next steps and timescales are in relation to reform and innovation. Officers advised that there will be challenging discussions, and the process will involve best value. There will also be a requirement to produce a communications plan for the people of Glasgow and the workforce. Officers will provide an update to Members as quickly as possible.

Members highlighted that in 2024/25 Glasgow is accommodating 95% of all asylum cases in Scotland and asked if there are any levers to share the responsibility with other local authorities. Officers advised that there is legislation in place which would need to change to adopt a different position. There is a legal requirement to provide emergency accommodation. Discussions are ongoing with outlying local authorities however the Chief Officer emphasised that Glasgow is proud of its dispersal city status.

The Integration Joint Board:

a) Approved the Medium Term Financial Outlook 2025-2028.

10. Glasgow City IJB Budget Monitoring for Month 10 and Period 11 2024-25

Margaret Hogg presented a report outlining the financial position of the Glasgow City Integration Joint Board as at 10th January 2025 for Council and 31st January 2025 for Health and highlights any areas of budget pressures and actions to mitigate these pressures.

The Integration Joint Board:
