6. Chief Officer Update

Susanne Millar provided the following update.

Delayed Discharges – the current position, as at 27-06-23, is 130 people delayed in hospital. Of those, 56 are Adults with Incapacity (AWI) and 30 people are awaiting a care home placement. There were 177 discharges into the community last week. Of those, 152 were discharged with care at home and 25 complex care patients were discharged into care homes. Officers have started winter planning early this year and a more detailed update will be provided to the IJB in September on delayed discharge connected to winter planning.

OFFICIAL

Closure of Hogganfield Care Home – an update was provided on the sudden closure of the care home with 22 residents safely managed and moved on. The Chief Officer noted recognition of the exceptional work from the HSCP Care Planning and Commissioning Teams. There is an increase in concern with regards to the fragility of the care home sector and Officers continue to work with colleagues in the GG&C HSCPs and within Acute. The concerns have been raised with the Scottish Government and COSLA.

Junior Doctor Strike - there is planned industrial action by Junior Doctors from 12th July. HSCP Officers are working with colleagues in Acute in terms of the planning and contingencies for Mental Health patients.

National Care Service – a number of workshops are planned over the summer for workforce and workforce planning which the HSCP will participate in. A response is anticipated from the Minister in relation to the Scrutiny Committee's concerns regarding the financial memorandum.

Scottish Covid-19 Inquiry – the HSCP have submitted a document inventory and met with the Inquiry Team for a background briefing. The Scottish Inquiry will start hearing evidence in October from Public Health and will then move onto the care home phase, starting with residents, family members and patients with life limiting illness first. Some of the evidence will have an impact on the care home staff group, therefore the HSCP are running reflective sessions over the summer to prepare staff for the evidence they may hear.

Members requested more detail on the fragility of the care home sector and what the impact is on availability of care home beds. Officers advised that a number of factors are affecting the sector including no agreement being reached on the National Care Home Contract uplift rate. The final date for a formal response from care homes is 30th June 2023. There are also recruitment challenges and agency and energy costs having an impact. In terms of care home beds, there is availability of around 200 placements however care home placements don't always match the needs of the individual.

Officers reassured Members that there is significant oversight of care homes within the HSCP in terms of contract management, with named commissioners for all care homes and a Care Home Oversight Group, chaired by the Chief Officer. Financial sustainability sits with Scotland Excel however is also monitored within the HSCP.

The Vice Chair advised that himself and the Chief Officer are meeting with the Scottish Minister on 15th August 2023 and the intention is to raise a number of the issues discussed today with the Minister.

7. Outturn Report 2022/23

Margaret Hogg presented a report to provide a high level overview of the Integration Joint Board's draft outturn position for 2022/23, and to seek approval for the transfer of funds to reserves to allow completion of the Integration Joint Board's accounts by the statutory deadline of 30 September 2023.

Officers advised that they continue to review the financial position and hope to present a Medium Term Financial report for 2024-25 to the IJB in September. The Chair advised that the reserves position has been raised in correspondence with the City Treasurer and Scottish Ministers. A number of factors have contributed to the overspend including the shortfall in funding to meet the Council Pay Settlement, recruitment challenges and prescribing costs.

The NHS GG&C Staff Side Representative requested a breakdown in relation to staff vacancies within NHS and Glasgow City Council. Officers agreed to provide this.

Officers

The Chief Officer referenced the 2023/24 Budgets and Savings report from Health and Social Care Scotland, which was shared with Members and sets out the impact of budget setting and the challenges that all IJBs face in the context of the wider public sector. This has also been shared with the Scottish Government and COSLA. The Chief Officer outlined the decision to be transparent in relation to the scale of the pressures in homelessness and bring the report to the IJB at an early stage.

Members questioned the implications of the breaches of the Unsuitable Accommodation Order by more than 600 households. Officers advised that Glasgow is not unique in its position and the worst-case scenario of a breach would be a judicial review. Officers are in regular dialogue with the Scottish Housing Regulator regarding this. The statutory obligation remains with the Local Authority and any judicial review would therefore sit with the Council.

A discussion took place on the modification of the local connections power and the impact this has had in Glasgow, in comparison to other local authorities. Officers advised that they have had extensive engagement with the Scottish Government and a national group has been established. Councillor Allan Casey updated on discussions with the Scottish Government and requests for a funding mechanism to be made available for Glasgow, either via recharging or specific funding. The Minister has recognized the impact in Glasgow and is analysing information across all 32 local authorities before formally responding to the request for additional allocation of funding.

Officers updated on sessions held with Registered Social Landlords (RSLs) which highlighted the points of pressure around the domestic homeless population, the impact of positive decision making by the Home Office, the impact of local connections and the unknown around longer-term planning arrangements for Ukraine. Whilst discussions have been positive, RSLs are experiencing significant challenges which may prevent them securing the necessary quota for homeless households.

The Chief Officer highlighted that the legislation in Scotland differs from England due to the abolition of priority need. This also disproportionately impacts on Glasgow as the only dispersal city in Scotland for asylum seekers however work is ongoing to extend that. The HSCP will continue to be focused on operational solutions however some are structural and require discussion at Scottish Government and UK level.

The Integration Joint Board:

- a) Noted the progress made since approving changes at IJB in January 2023;**
- b) Noted that financial savings since January 2023 have been superseded by the relaxation of Local Connections legislation (November 2022), positive decision making by Home Office and a short fall of 1600 lets;**
- c) Noted the additional recovery measures outlined at section 4.2 of the report; and**
- d) Noted that even with these actions a revised overspend of £11.7m is forecast and will be the subject of future reports.**
