Stephen O'Hagan and John Cornett presented the cover letter and draft Annual Audit Report to the Committee; advising that the report summarises the work undertaken over the year and of the financial opinion. Officers advised that this was not published, but was available for HSCP officers and auditors. However there was good practice guidance, 'Improving the quality of local authority accounts – integration joint boards' published by Audit Scotland in April 2018 and there is an opportunity to revisit this.

Sharon Wearing proposed that Audit Scotland arrange for Neil Cameron to attend a future meeting of the National Chief Finance Officers to discuss.

The members referred to the first recommendation regarding the size of agendas and volume of papers for meetings; and the third recommendation, self-evaluation of the IJB, questioning what these should be measured against. There must be some guidance from Internal Audit and Officers. It was accepted that depth of detail was required in papers to allow members to make informed decisions. Also that there was some differences between the IJB and the Committees and that information was required to make strategic decisions.

Internal Audit officers advised that they would work with management to share examples of good practice elsewhere and look at alternative means of sharing papers. Officers would also recirculate the assurance mapping, which provided guidance on what should be presented to the Committee. In relation to self-evaluation this will be driven by members, but officers would share examples from other areas.

Sharon Wearing advised that there was a lot of discussion on frequency of meetings and the agenda, and that some measures had been put in place to support this, such as links to previous reports; discussions at developments sessions; and opportunity to ask questions before meetings. It was proposed that officers and Business Development staff meet with Internal Audit to explore options; and produce a paper for members' consideration, to be discussed at a development session. Members also noted that self-evaluation would be explored through the development sessions.

The Committee noted the comments from members and welcomed the recommendations from Internal Audit, acknowledging that there was some work to do to progress these.

The IJB Finance, Audit and Scrutiny Committee:

a) noted the content of the report; and

b) recommended that the Head of Audit and Inspection submits a further report to the IJB Finance, Audit and Scrutiny Committee on the implementation of the actions contained in the attached Action Plan.

Stephen Fitzpatrick presented a report to provide the IJB Finance, Audit and Scrutiny Committee with a summary of Care Inspectorate activity within directly provided older people's residential and day care services in the period August 2018 - July 2019.

Officers advised that Table 1 outlined the grades awarded by the Care Inspectorate for five older people's residential services delivered by Glasgow City HSCP. Positive grades were received; and there was one satisfactory grade at Riverside Care Home regarding 'How good our staff team is'. This was due to a new staff team coming together and the Committee was assured that work was underway to improve the grade, including training to develop staff skills and supporting the staff group.

No requirements were received and a total of 10 "areas for improvement" were made across all five residential care services that received an unannounced inspection during the reporting period; as detailed in Appendix 3. All areas have a robust action plan.

OFFICIAL

The overall average score for most recent and previous inspections was outlined at section 3.1; and the appendix provided scores for each of the individual homes. The summary of scoring for all quality themes were outlined in the table at 3.6; this showed the percentage of grades awarded across each of the quality themes for all homes for the most recent, and previous inspections.

The Care Inspectorate made a number of requirements and recommendations as part of their findings from the most recent inspections across the 20 homes; these were detailed at Appendix 3; and officers were confident that these would be met.

Members discussed the report and requested that future reports do not focus on average scores in the body of the paper but also present the range of scores across a theme e.g. by bar chart.

Members also requested that positive performance is included; and that officers are mindful of language used and that the term 'high cost placements' is not used but placements best suited to the child's needs, rather than this being about cost. Officers confirmed that placements are made based on those that meet the best needs of the child.

The Committee discussed the reporting of all of the Care Inspectorate reports and it was agreed that the reports would be presented annually to the Committee in February. The home care inspectorate activity will be incorporated in to the Older People Services report. There would also be a template produced to ensure that the reports were consistent; and a table will be appended to each report which will outline Care Inspectorate recommendations, management response and timescales.
