1. Introduction

- 1.1 This monitoring statement provides a summary of the financial performance of the Glasgow City Integration Joint Board for the period 1 April 2017 to 31 May 2017 (Health), and to 5 May 2017 (Council).
- 1.2 It is based on information contained in the respective financial systems and includes accruals and adjustments in line with its financial policies.

2. Summary Position

- 2.1 Net expenditure is £262,000 less than budget to date and is broadly in line at this stage with the budgeted contingency of £2.6m. Gross expenditure is £263,000 (0.18%) underspent, and income is over-recovered by £1,000 (0.01%). As noted below in section 7.2 and in line with the approved Reserves Policy, any net underspend within 2017/18 will be transferred to reserves at the end of the financial year in order to provide future security against unexpected cost pressures and aid financial stability.
- 2.2 Appendix 1 shows this budget variance by both care group and subjective analysis.

3. Budget Changes

- 3.1 During month 2/period 2 the net expenditure budget has decreased by £xxx. The month 2/period 2 changes to the gross expenditure and income budgets are analysed in the table below.

Explanation	Changes to Expenditure Budget	Changes to income Budget	Net Expenditure Budget Change
CORDA Inflation & Savings	-£1,628,000	£0	-£1,628,000
Increase in Income and expenditure budgets funded from external sources	+£52,000	+£52,000	£0
Hospices	+£4,765,000	£0	+£4,765,000
Resource Transfer from NHS Board budget	+£5,807,000	£0	+£5,807,000
Transfer of former continuing care GP costs/drugs budgets	+£298,000	£0	+£298,000
Learning Disability Resource Transfer	+£222,000	£0	+£222,000
Complex Care Savings	-£600,000	£0	-£600,000
GMS cross-charge adjustment	-£413,000	£0	-£413,000
Income from external sources	+£1,046,000	+£1,046,000	£0
Uplift to cross-boundary flow income	+£106,000	+£106,000	£0
Totals	+£9,655,000	+£1,204,000	+£8,451,000

3.2 In addition there have been a number of budget transfers during the period to reflect service reconfigurations.

4. Transformation Programme

4.1 As the prescribing budget for 2017/18 has yet to be finalised, we have not yet brought a review and forecast of transformation savings across the IJB against targets. A report on Prescribing costs and related savings, together with detailed forecasts against the Transformation Programme will be brought to the next IJB meeting.

5. Reasons for Major Budget Variances

5.1 Children and Families

5.1.1 Net expenditure is underspent by £18,000.

5.1.2 Residential School placement numbers have increased by 6 since the end of last financial year to 98, with a full-year commitment of £18.710m. The overspend to date is £93,000 and includes 5 placements within secure establishments. Based on these placement numbers, the full-year projected overspend is £972,000.

5.1.3 Purchased placements have decreased by 5 since the end of last financial year to 410, with a full-year commitment of £24.551m. The underspend to date for purchased placements is £53,000. Based on these placement numbers, the full-year projected underspend is £344,000.

5.1.4 In other areas of the service there are overspends in employee costs (£40,000) as a consequence of turnover being lower than that anticipated within the Transformation Programme, premises costs (£22,000), Cordia Transport (£41,000) mainly in respect of young people in care being taken for contact visits with family or to school, and direct assistance payments (£43,000). These overspends are offset by underspends which include provided foster care (£118,000), adoption allowances (£23,000), purchased respite (£88,000).

5.1.5 Within School Nursing, a £400,000 savings target has been applied and largely achieved. Full achievement is expected by the end of the first half of year, with a further review of the service on-going. Year-to-date, this service is £10,000 overspent. Health Visiting development funding from the Scottish Government is expected but amounts are not yet confirmed and so a prudent position has been assumed so far, and this service is currently showing an overspend of £34,000. In addition, while some progress has been made towards the NHS Children's services savings programme, there currently remains some outstanding, leaving an overspend of £24,000 year-to-date.

5.2 **Older People**

- 5.2.1 There is a net underspend of £592,000 in the provision of services to Older People.
- 5.2.2 There is an underspend of £594,000 as a consequence of the timing of the Prudential borrowing charges relating to the Older People's Residential Strategy. These monies will be available in 2017/18 to fund fit-out costs within this programme.
- 5.2.3 The supply of community equipment to aid hospital discharge or prevent admission ('EquipU') is overspent by £56,000. It is acknowledged that initiatives undertaken through the Change Fund and Integrated Care Fund have resulted in a higher level of spend in this area and so further funding was allocated here from Delayed Discharge funding. There will remain a pressure which service managers will be expected to manage.
- 5.2.4 These pressures are offset by an underspend within a number of nursing services (Out of Hours Nursing, Specialist Nursing and Rehabilitation Services) of £87,000, as a result of staff turnover. Although some of the NHS Older People's savings have been achieved, unachieved savings relating to the Older People's system of care are resulting in an overspend of £25,000 year-to-date.

5.3 **Addictions**

- 5.3.1 Addictions are underspent by £107,000. This is mainly the result of The Community Addiction Teams. Funding has been provided at the top of scale from the NHS Board-wide Resource Allocation Model, resulting in non-recurring savings in-year.

5.4 **Elderly Mental Health**

- 5.4.1 Elderly Mental Health services are overspent by £664,000. This includes the ongoing cost of beds in Darnley and Quayside, accommodating adults with incapacity ('AWI') who have been discharged from acute services. Last year, these costs were held within centrally within the HSCP in 'Other Services'. There is no specific budget for these costs which, year-to-date, amount to £145,000. The vast majority of the overspend relates to inpatient services. (Year-to-date, this amounts to £600,000, of which unachieved savings amount to £528,000.)
- 5.4.2 In relation to medical locums – a cost pressure referred to last year - we have been successful in securing funding from NHS Lanarkshire for clinical time provided to the Cambuslang/Rutherglen area. This is now no longer a cost pressure.

5.4.3 An underspend within other community staffing budgets offsets nursing pressures within Stobhill inpatient wards as a result of the requirement for special observations and cover for sickness absence. Following the rationalisation of elderly wards from Parkhead, a more expensive shift pattern has been in operation. This shift pattern is due to cease in June 2017.

5.5 **Learning Disability**

5.5.1 Learning Disability services are underspent by £13,000. This is mainly the result of an underspend within NHS Community Teams.

5.6 **Homelessness**

5.6.1 There is a net underspend of £427,000 within Homelessness services, which is mainly attributable to employee vacancies and savings generated within the housing support tender, together with vacancies across Occupational Therapy, Nursing and Admin.

5.7 **Adult Mental Health**

5.7.1 Adult Mental Health services are overspent by £383,000. Savings unachieved related to the move off Parkhead amount of £117,000 and within central Mental Health services amount to £59,000. Acute admission in the north of the city is overspent by £55,000 largely related to nursing pressures at Parkhead and the Intensive Psychiatric Care units. Within hosted Mental Health services, there are overspends within Junior Doctors and Extra Contractual Referrals and unachieved savings, together totalling £86,000.

5.8 **Hosted Services**

5.8.1 Hosted Services are made up of Sexual Health Services and Police Custody Healthcare and are underspent by £118,000. This is largely as a result of medical and nursing vacancies within the Police Custody service, and turnover within Medical, Nursing and Psychology within Sexual Health.

5.9 **Other Services**

5.9.1 Other Services are underspent by £106,000. This relates largely to underspends on Telecare, and employee costs within support services.

5.10 Prescribing Costs

5.10.1 Budgets and savings targets for Prescribing costs have yet to be finalised with the final position for 16/17 only recently being established. Accordingly, a breakeven has been reported at month 02. The NHS Board's and the IJB's financial plan for 2017/18 noted Prescribing costs as a key area of risk and added that they are demand driven and can vary considerably throughout the year.

5.10.2 The final position for Glasgow City HSCP in 2016/17 was an underspend of £2.5m, although additional funding of £1.9m had been added by the NHS Board from the original budget figure when budgets were thought to be significantly below forecast spend, leaving a net underspend position against the original budget of £0.6m

6. Action

6.1 The Chief Officer, along with the Health and Social Care Partnership senior management team, continues to manage and review the budget across all areas of the Partnership.

7. Conclusion

7.1 Net expenditure is £262,000 less than budget to date. The overall position will be reviewed and updated through the normal monitoring process where any material change is identified over the course of the financial year. As noted above, budgets for Prescribing cost and related savings have yet to be finalised. In addition, a number of NHS savings initiatives through the transformation programme have yet to achieve the required level of savings. These initiatives are being critically reviewed and closely monitored by the IJB's Integration Transformation Board and will be reported on in future monitoring statements.

7.2 In line with the approved Reserves Policy, any net underspend which may occur within 2017/18 will be transferred to reserves at the end of the financial year in order to provide future security against unexpected cost pressures and aid financial stability. Alternatively, general reserves may be required to mitigate against the budget pressures referred to within this report. Earmarked reserves will be released as expenditure is incurred.

8. Directions

8.1 A summary of all current directions is attached to this report.

9. Recommendations

9.1 The Integration Joint Board is asked to:
