## 1. Introduction

- 1.1 This monitoring statement provides a summary of the financial performance of the Glasgow City Integration Joint Board for the period 1 April 2018 to 31 August 2018 (Health), and to 31 August 2018 (Council).
- 1.2 It is based on information contained in the respective financial systems and includes accruals and adjustments in line with its financial policies.

## 2. Summary Position

- 2.1 Net expenditure is £0.059m less than budget to date. Gross expenditure is £0.231m (0.04%) overspent, and income is over-recovered by £0.290m (0.81%). If this position continued to the end of the financial year, the net underspend would be transferred to reserves.
- 2.2 Appendix 1 shows the current budget variance by both care group and subjective analysis.

## 3. Budget Changes

- 3.1 Throughout the financial year, adjustments are made to the original approved budget as a result of additional funding allocations and service developments. During Month 5/Period 6 the net expenditure budget has increased by £2.105m. The changes to the gross expenditure and income budgets are analysed in the table below.

Explanation	Changes to Expenditure Budget	Changes to Income Budget	Net Expenditure Budget Change
Alcohol & Drug Partnership Additional Investment in services	£2,054,677	£0	£2,054,677
Rationalisation of Inter Division SLA's	-£457,325	£0	-£457,325
Deep End Pioneer Scheme	£441,446	£0	£441,446
Other Minor Adjustments	£226,656	-£160,467	£66,189
<b>Total</b>	<b>£2,265,454</b>	<b>-£160,467</b>	<b>£2,104,987</b>

- 3.2 In addition there have been a number of budget transfers during the period to reflect service reconfigurations.
- 3.3 The IJB has received an updated offer letter from NHS Greater Glasgow and Clyde which takes account of a number of recurring and non-recurring budget movements which have been agreed with the Board and confirms our funding of £793.120m at 30 September 2018. It also reflects the set aside budget for 2018/19 which will remain as a notional budget for 2018/19. This offer letter is attached at Appendix 2.

## **4. Transformation Programme**

- 4.1 The overall savings target for 2018/19 is £16.964m. At this stage of the year, it is anticipated that actual savings will amount to £14.141m representing 83% of target. This is linked to the delivery of a saving in purchased services in Learning Disability (£0.500m) and care home placements within Older People (£2.323m). Further scrutiny of the financial position, including authorisations, reviews and transitions from Children and Family, Adults and Older People is currently underway.
- 4.2 This is reflected in the overall financial position reported in this monitoring statement and delivery will continue to be monitored by the Integration Transformation Board.

## **5. Reasons for Major Budget Variances**

### **5.1 Children and Families**

- 5.1.1 Net expenditure is underspent by £1.682m.
- 5.1.2 Work continues in support of the Transformation Programme within Children and Families and has secured a further reduction in Residential School placement numbers of 9 since 1st April. At period 5 the underspend is £0.423m. The full year projected underspend is £0.917m. Purchased placements is also underspending by £0.827m with a full year projected underspend of £1.800m. The majority of placements are in purchased fostering.
- 5.1.3 In other areas of the service there are underspends in provided foster care due to reducing placement numbers (£0.352m), personalisation (£0.324m) and shared care and community respite (£0.115m). Employee costs (£0.230m) are also underspent mainly due to Social Worker vacancies in the Localities and vacancies in School Nursing and Senior Nursing services.
- 5.1.4 These underspends are partially offset by an overspend in transport costs (£0.161m) mainly in respect of young people in care being taken for contact visits with family or to school. Budget re-alignment has been actioned this period to help alleviate some of this pressure and a focus on cost reduction will continue.
- 5.1.5 There is also an overspend of £0.349m in Direct Assistance mainly in respect of Section 29 payments to Care Leavers linked to increasing numbers in the community eligible for funding.

### **5.2 Adult Services**

- 5.2.1 Net expenditure is overspent by £0.480m.
- 5.2.2 Purchased Services and Direct Payments within Learning Disability are overspent by £0.748m. This overspend is attributable to unachieved savings and the impact of transitional drift from Children and Families, and onwards to Older People. A realignment of budget and options for remedial action are currently being considered.

5.2.3 Mental Health is overspent by £0.620m. There are overspends across the city in respect of Psychiatric Medical staffing (£0.223m), due to maternity leave and vacancy cover and unfunded sessions which are currently under review. In addition to this Junior Doctor rotations (£0.205m) is overspent. Funding is received from NHS Education (NES) to support an approved number of Doctors post graduate training however funding is received at mid-point of the grade and no allowance is made for vacancies. Nursing is also overspent (£0.248m) due to increasing pressures in Inpatient Care Unit and increasing acute admissions and the need for enhanced observations. There are therefore a number of component parts contributing to the emerging variance.

5.2.4 This is offset by underspends in a number of services largely due to periods of vacancies and turnover (£0.893m). Recruitment is ongoing.

### **5.3 Older People and Physical Disability**

5.3.1 Net expenditure is overspent by £1.009m.

5.3.2 Purchased Care Homes (£1.136m) is overspent due to increased placements and lower than forecast discharges, resulting in the non-delivery of a planned saving for 2018/19.

5.3.3 The demand for beds in Darnley and Quayside, accommodating adults with incapacity ('AWI') (£0.303m) continues in 2018/19 with an overspend reported year to date. The 2018/19 budget approved in March recognized that the pressure in this area was higher than the funding identified. There are opportunities to mitigate this pressure through the review of continuing care beds which is currently underway.

5.3.4 Employee costs within Older People is overspent by £0.514m, mainly in Area Services Fieldwork (£0.398m) due to lower expected levels of staff turnover and agency and overtime in Residential and Day Care (£0.357m). Also Mental Health services are overspent by £0.116m with respect to inpatient ward nursing pressures. This has been partially off-set with underspends in a number of services largely due to periods of vacancies and turnover (£0.358m).

5.3.5 Personalisation is overspent (£0.216m), this is offset with an underspend in traditional Supported Living (£0.692m), Older People Purchased Day Care (£0.185m) and Physical Disability Purchased Residential (£0.041m). These underspends being a consequence of the introduction of personalisation and the transfer of this demand to these new budget areas.

5.3.6 A number of other areas are also experiencing underspends including:-

- Income is over-recovered (£0.124m) and relates mainly to the recovery of overpayments of Physical Disability Direct Payments.
- Intermediate care placement activity has decreased resulting in an underspend of £0.120m.

## **5.4 Resources**

- 5.4.1 Net expenditure is overspent by £0.164m.
- 5.4.2 This is linked to an overspend in employee costs within Business Support mainly as a result of the need to re-align budgets and transfer funding to match additional approved posts. Proposals have been finalised funding will be re-aligned in Period 7.

## **5.5 Prescribing**

- 5.5.1 Prescribing is showing a breakeven position at Month 5.
- 5.5.2 The removal of the risk share arrangements in 2018/19 requires the IJB to deal with over and underspends. Monitoring arrangements have been put in place, based on the first 3 months of this financial year, due to a time lag on when data is available. This shows that Glasgow City is currently containing expenditure within the budget set.
- 5.5.3 This will continue to be closely monitored and will be the subject of future updates to the IJB.

## **6. Action**

- 6.1 The Chief Officer, along with the Health and Social Care Partnership senior management team, continues to manage and review the budget across all areas of the Partnership.

## **7. Conclusion**

- 7.1 Net expenditure is £0.059m less than budget to date. The overall position will be kept under review to the end of the financial year to ensure any material changes are identified, such as performance during the approaching winter months. A number of savings initiatives through the transformation programme have yet to achieve the required level of savings. These initiatives are being critically reviewed and closely monitored by the IJB's Integration Transformation Board.
- 7.2 In line with the approved Reserves Policy, any net underspend which may occur within 2018/19 will be transferred to reserves at the end of the financial year in order to provide future security against unexpected cost pressures and aid financial stability. Alternatively, general reserves may be required to mitigate against the budget pressures referred to within this report. Earmarked reserves will be released as expenditure is incurred.
- 7.3 A number of potential risks are highlighted throughout this monitoring report which will require to be mitigated going forward and these will be considered as part of our revenue budget plans for 2019/20.

## **8. Recommendations**

8.1 The Integration Joint Board is asked to:

- a) note the contents of this report;
- b) approve the budget changes noted in section 3; and
- c) agree to accept the delegated Budget from NHS Greater Glasgow and Clyde for 2018-19 (Appendix 2); and
- d) delegate a budget to NHS Greater Glasgow and Clyde of £793.120m and direct that this budget is spent in line with the strategic plan of the Integration Joint Board; and
- e) note the summary of current Directions (Appendix 3).

Dear David

### **2018/19 Devolved Budget Allocation to Glasgow Health & Social Care Partnership – month 6 update**

Further to Mark White's letter of 1 May setting out the Board's initial financial allocation to the HSCP for 2018/19 I am writing to update the allocation following confirmation of the additional Agenda for Change pay uplift funding.

This updated allocation also takes account of a number of other recurring and non recurring budget movements and shows the Board's allocation to the HSCP at 30 September 2018 including changes to the primary care prescribing allocation following full delegation of all central prescribing budgets and incorporating national tariff changes which have required the Board to return funding to Scottish Government.

The financial details of the allocation are included in appendix 1 to this letter.

### **Set Aside Budget**

The 2018/19 Set Aside Budget has been recalculated following based on updated information from ISD received in September 2018 and the calculations are included in appendix 2 to this letter. This will remain a notional budget in 2018/19.

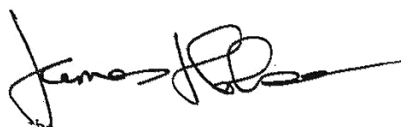

The Board is currently working with HSCPs and Scottish Government colleagues to review the basis for calculation using current activity levels and actual budgets and to agree details of how it will work in practice with a view to moving to using actual costs and activity from 1 April 2019.

The allocations are summarised below:

	£000
Hospital, Community and Primary Care Health Services	663,826
Notional Set Aside budget	129,294
<b>Total 2018/19 allocation at month 6</b>	<b>793,120</b>

I hope this now enables the HSCP to finalise its financial plans for 2018/19.

Yours sincerely

**James Hobson**  
Assistant Director of Finance
