OFFICIAL

1. Purpose

- 1.1. The purpose of this report is to provide an update to the IJB Finance, Audit and Scrutiny Committee on the status of the risk registers being maintained within Glasgow City Health and Social Care Partnership.
- 1.2. This report covers the review carried out in October 2019 in respect of changes to risk in the quarter from 1 July 2019 to 30 September 2019.

2. Integration Joint Board Risk Register

- 2.1. The Integration Joint Board Risk Register is maintained, updated and reported in line with the Glasgow City IJB Risk Management Policy.
- 2.2. The last quarterly review of this risk register was carried out in **July 2019**.
- 2.3. There was **1** risk on the register where the current risk level decreased since the last quarterly review:

Ref 0523: The likelihood of an impact on the IJB due to business support function pressures due to the Cordia transfer has reduced from 'Almost Certain' to 'Likely' and may reduce further. This is due to all mitigation actions being completed and ongoing monitoring now being part of business as usual.

- 2.4. There were **no** risks added to or removed from the register since the last quarterly review.
- 2.5. At the conclusion of the October 2019 review there were **12** 'live' risks on the register, with **1** risk having a current risk level of 'Very High', **5** risks with a risk level of 'High' and **6** risks with a risk level of 'Medium'.
- 2.6. All risks with a current risk level of 'Very High' or 'High' are reviewed every quarter, and these are shown in Appendix A with any recent updates to these highlighted.
- 2.7. Items with a current risk level of 'Medium' or 'Low' can be reviewed less regularly in line with the risk management policy. All of these items were reviewed this quarter.
- 2.8. The next quarterly review of the IJB Risk Register in 2019/20 is scheduled to be carried out in **January 2020**.

3. Social Care Risk Register

- 3.1. The Social Care Risk Register is maintained, updated and reported in line with the Glasgow City Council Risk Management Policy and Guidance.
- 3.2. The last quarterly review of this risk register was carried out in **July 2019**.

OFFICIAL

OFFICIAL

- 3.3. There was **1** risk where the current risk level decreased since the last quarterly review:

Refs 0588: The likelihood of reduced capacity in Home Care as a result of equal pay settlements has reduced from 'Possible' to 'Unlikely'. This is due to ongoing monitoring continue to highlight that the actual impact is less than was anticipated.

- 3.4. There was 1 risk where the current risk level increased since the last quarterly review:

Ref 0569: The likelihood of an ICT system failure increased from 'Possible' to 'Almost Certain' due to the failure of the Home Care system for 13 days that resulted in disruption to service delivery and contingency arrangements being put in place. This increased this risk from High to Very High.

- 3.5. There were **no** risks added to or removed from the register since the last quarterly review.

- 3.6. At the conclusion of the **October 2019** review, there were **32** 'live' risks on the register, with **10** risks having a current risk level of 'Very High', **9** risks with a risk level of 'High', **10** risks with a risk level of 'Medium' and **3** risks with a risk level of 'Low'.

- 3.7. All risks with a current risk level of 'High' or 'Very High' are reviewed every quarter, with the most recent updates to these shown in Appendix A.

- 3.8. Risks with a current risk level of 'Medium' or 'Low' are reviewed less regularly in line with the risk management policy. All of these were reviewed by the risk managers during this quarterly review, and their current risk level was assessed to be accurate.

- 3.9. The next quarterly review of the Social Care Risk Register is scheduled to be carried out in **January 2020**.

4. Health Risk Register

- 4.1. The Glasgow City Health Risk Register is currently maintained, updated and reported in line with the NHS GGC Risk Management Policy, and collates the most significant risks as identified in locality and service risk registers. The register was last reviewed in **July 2019**.

- 4.2. There were no risks on the register where the current risk level increased or decreased since the last quarterly review.

- 4.3. All risks with a current risk level of 'High' or 'Very High' are shown in Appendix A.

- 4.4. The next quarterly review of the Health Risk Register is scheduled to be carried out in **January 2020**.

2464	Shortage of Appropriate / Competent Staff Compromising Ability to Deliver Service - Admin	Recruitment arrangements delay process of appointing staff Fixed Term contracts due to Admin review making posts difficult to fill. No Bank staff available.	Buchanan, Alasdair	5	5	25	Very High	2 sessions per week from ADRS ARBD to cover staff breaks New TL covering duties with support from B4 where grade appropriate Senior admin meeting every 2 weeks to monitor work and risk areas. The HAHS Admin Team is made up of 12.6 WTE posts (B3 Admin Assistant 10 WTE of which 0.5 is dedicated admin support to the CBRS; B4 Admin Supervisor 2.6 WTE) with 2 of these posts from GCC SWS; and supported by a B5 Assistant Admin Manager. As agreed at the ACLG / WFPG level during recent months – new staff have now been appointed (permanent) which has helped to build the team. At time of writing 1 F/T fixed term vacancy remains. 2479	Project 100	Increasing the prison population by 100 would have a wholly negative impact on the NHS ability to meet the standards expected to provide healthcare to the patients at HMP Low Moss having huge ramifications of service delivery. This will bring an increased burden on staff as the focus will remain on basic service delivery which will again bring NHS Prison healthcare under further scrutiny considering the negative outcome from HMP Inspection report in 2017. The healthcare manager has escalated this announcement of increased intake to low moss population to NHS senior management to review and discuss contingency in current service delivery in relation the existing staff cohort. Please find a list of concerns highlighted the still remain but will be exacerbated.	Simson, Karan	5	3	15	High	NHS/SPS Heads of Service meeting weekly to discuss risks associated with the implementation of said proposal and an action plan of the potential impact and ramifications is being collated.	5	3	15	High	October 2019: No change
2459	CMHT Staff Shortage	Due to shortage of nursing and OT staff within the CMHT unable to meet the demands of clinical activity. 16/09/19 - Risk is unchanged. We have system wide bed management arrangements and regular review of clinical activity in wards with ability to close to admissions if unable to meet safe staffing levels. Caseload mgt is completed monthly but due to high turnover of staff in both CMHT's and inpatients recruitment process takes around 7 months from raising vacancy to staff in post . This means by time we recruit we have lost more staff and have consistently run with 4-6 WTE shortages per team across nursing and medical staffing.	Phillips, Katrina	5	3	15	High	Caseload management	5	3	15	High	October 2019: Risk is unchanged. 2460	MHO Pressures	Pressure on MHO activity due to on-going vacancies and staff turnover.	Phillips, Katrina	5	3	15	High	Workload prioritisation	5	3	15	High	October 2019: Issue is due to recruitment authorisation process/PVG/reference checks and is under constant review. Workforce data shows high turnover is impacted by number of staff having MHO status who can retire at 55 and are opting to do so. This is likely to continue to impact over next 2 years when all staff with MHO pension status will have gone. Universities only have one intake a year so availability of newly qualified staff is more limited. Re: MHO pressures in Social Work - this is due to increased demand and ability to recruit. We are encouraging existing staff to undertake MHO training and attempting to recruit additional staff and reviewing our duty system. This risk remains high.
