## OFFICIAL

### 1. Purpose

- 1.1 This report is an update on financial reporting for the Glasgow City Integration Joint Board as of 31st December (Health) and 13th January (Council).
- 1.2 It is based on information contained in the respective financial systems and includes accruals and adjustments in line with its financial policies.

### 2. Financial Reporting Issues

- 2.1. The financial reporting for Glasgow City Integration Joint Board is based on information contained in the respective financial systems of both partner bodies. Glasgow City Council is experiencing technical issues with its financial ledger system and this has impacted on our ability to access financial reporting information to support the preparation of financial reporting to the IJB.
- 2.2. As part of the Council's business continuity processes priority has been given to the ensuring payments are maintained to individuals and organisations and we have worked with the Council to ensure this continuity for our services. Work has only recently concluded on resolving the technical issues related to financial reporting. This will enable future reporting on financial reporting to the IJB as well as the closure of the IJBs annual accounts.

### 3. Financial Performance

- 3.1. As a result of the technical issues experienced with the Council's financial ledger system, we are not in a position to report on the financial performance of the IJB for this period. However, we have undertaken a review of major spending areas using internal commitment systems which are available to identify if there has been any significant change to the probable outturn last reported. I can confirm that based on this high level review our projection remains in line with the probable outturn last reported, which was an overspend of £5m.
- 3.2 Prescribing remains volatile with prices continuing to be volatile due to fluctuations due to global prices (increase of 8%). The graph below illustrates the continued increased movement in price which has been experienced in 2022-23 compared to previous years. This continues to be closely monitored and represents a significant financial risk for the IJB.
