Meeting Date: Wednesday 24th January 2024

Glasgow City Integration Joint Board

Report By:	Sharon Wearing, Chief Officer, Finance and Resources			
Contact:	Sharon Wearing			
Phone:	0141 287 8838			
Glas	gow City Integration Joint Board Budget Monitoring for Month 8 and Period 9 2023/24			
Purpose of Report:	This report outlines the financial position of the Glasgow City Integration Joint Board as at 17 th November 2023 for Council and 30 th November 2023 for Health and highlights any areas of budget pressures and actions to mitigate these pressures.			
Background/Engage	ment: The financial position of Glasgow City Integration Joint Board is monitored on an ongoing basis throughout the financial year and reported to each meeting of the Board.			
Governance Route:	The matters contained within this paper have been previously considered by the following group(s) as part of its development.			
	HSCP Senior Management Team □			
	Council Corporate Management Team			
	Health Board Corporate Management Team			
	Council Committee			
	Update requested by IJB			
	Other			
	Not Applicable ⊠			
Recommendations:	The Integration Joint Board is asked to:			
	a) note the content of this report;			
	b) approve the budget changes noted in section 3;			
	c) note the update on the outturn in section 6; and			

d) note the summary of current Directions (Appendix 2).

Relevance to Integration Joint Board Strategic Plan:

This report outlines expenditure against budget in delivery of the range of Health and Social Care services described within the Integration Joint Board Strategic Plan 2023-26.

Implications for Health and Soc	cial Care Partnership:
Reference to National Health & Wellbeing Outcome(s):	Not applicable at this time.
Personnel:	Not applicable at this time.
reisonnei.	Not applicable at this time.
Carers:	Expenditure in relation to carer's services is included within this report.
Provider Organisations:	Expenditure on services delivered to clients by provider organisations is included within this report.
Equalities:	Not applicable at this time.
Fairer Scotland Compliance:	The expenditure on services supports the delivery a Fairer Scotland.
Financial:	All financial consequences are detailed within this report.
Legal:	Not applicable at this time.
Economic Impact:	Not applicable at this time.
Sustainability:	Not applicable at this time.
Sustainable Procurement and Article 19:	Not applicable at this time.
Risk Implications:	In setting its budget in March, the IJB recognised that not all costs pressures could be fully funded from savings. The budget paper proposed the use of £17.166m of general reserves to fund the pressures identified within homelessness, prescribing and the risks associated with inflation. The report to the November IJB confirmed that based on updated forecasts the need for general reserves had increased to £24.3m. The IJB is facing a homelessness emergency due to a range of factors including funding, accommodation cost and demand pressures. Given the scale of the financial pressure being faced in the current financial year and the

forecasts for 2024-25 to 2026-27, it is recognised that further recovery planning will be challenging.

Operating in this climate is no longer sustainable. The system is already working under extreme pressure, and this cannot be sustained over the medium term. This requires the organisation to fundamentally reset service delivery to a level which is sustainable both in terms of meeting the demands of the population of Glasgow City but also be sustainable within the financial envelope which is available. The Executive Team are currently working on a a reshaping of services and the updating of the mediumterm financial strategy to support implementation.

The acceleration of Home Office asylum decisions will impact on the financial sustainability of the IJB, if additional funding is not secured.

There continues to be a high level of volatility linked to demand and cost pressures. As a result of this, the outturn and recovery plan will be subject to close monitor and is also likely to change.

The recurring implications of these pressures will also need to be considered as part of the 2024-25 budget exercise.

Implications for Glasgow City Council:

The cost and demand pressures being faced will have implications for service delivery in 2023-24 and future years where decisions will be required to deliver recurring funding solutions. The Integration Scheme clearly outlines the responsibilities of Partners and the IJB if spending exceeds budget plans. Partners will be kept updated on financial performance during the year. Discussions have already commenced with the Council in relation to the impact of accelerated decision making by the Home Office.

Implications for NHS Greater Glasgow & Clyde:

The cost and demand pressures being faced will have implications for service delivery in 2023-24 and future years where decisions will be required to deliver recurring funding solutions. The Integration Scheme clearly outlines the responsibilities of Partners and the IJB if spending exceeds budget plans. Partners will be kept updated on financial performance during the year.

1. Purpose

- 1.1. This monitoring statement provides a summary of the financial performance of Glasgow City Integration Joint Board for the period 1st April 2023 to 17th November 2023 for Council and 30th November 2023 for Health.
- 1.2. It is based on information contained in the respective financial systems and includes accruals and adjustments in line with its financial policies.

2. Summary Position

- 2.1. Net expenditure is £12.194m higher than budget to date. Gross expenditure is £12.189m (1.25%) overspent and income is under-recovered by £0.005m (0.00%).
- 2.2. Appendix 1 shows the current budget variance by both care group and subjective analysis.

3. Budget Changes

3.1 Throughout the financial year, adjustments are made to the original approved budget as a result of additional funding allocations and service developments. To period Month 8/Period 9 the net expenditure budget has increased by £19.098m. The changes to the gross expenditure and income budgets are analysed in the table below.

Explanation	Changes to Expenditure Budget	Changes to Income Budget	Net Expenditure Budget Change
Tenant Grant Funding - Additional Award	£359,000		£359,000
Cost of Living Funding - Additional Award	£200,000		£200,000
Scottish Government Funding - Specialist Community Perinatal Services	£727,768		£727,768
Scottish Government Funding - Mother and Baby Unit	£530,000		£530,000
Scottish Government Funding - Hospital at Home	£51,948		£51,948
Scottish Government Funding - National Tariff Increase Pharmacy	£2,522,405		£2,522,405

Explanation	Changes to Expenditure Budget	Changes to Income Budget	Net Expenditure Budget Change
Scottish Government Funding Clinical Service Lead	£70,000		£70,000
Scottish Government Funding Weigh to Go	£171,000		£171,000
Scottish Government Funding Smoking Prevention	£482,401		£482,401
NES Uplift for Medical Training Grades	£885,000	-£885,000	£0
Scottish Government Funding GMS Contract	£8,479,077		£8,479,077
Scottish Government Funding COVID vaccines housebound/care homes	£575,211		£575,211
Scottish Government Funding Family Nurse Partnership	£3,862,378		£3,862,378
Scottish Government Funding MH Outcomes Framework	£1,068,871		£1,068,871
External income: Trauma ANCHOR Victim Centred Approach Fund	£265,000	-£265,000	£0
Minor income adjustment	£145,923	-£148,409	-£2,486
Total	£20,395,982	-£1,298,409	£19,097,573

4. Transformation Programme

- 4.1 The Integration Transformation Board continues to meet to secure the delivery of in-year savings. The overall savings target for 2023/24 is £21.576m. At this stage of the year, it is anticipated that actual savings realised will be £21.502m representing 99.6% of the target.
- 4.2 The unachieved savings target from prior years is £0.569m. At this stage of the year, it is anticipated that £0.140m is forecast to be achieved. The gap is primarily in relation to transport savings. Procurement options are currently being explored and implemented. Delivery of savings could be impacted by current market conditions.
- 4.3 The savings realised are reflected in the overall financial position reported in this monitoring statement.
- 4.4 The Integration Transformation Board has also been monitoring the transformation agenda to support future year budget planning. This includes the following areas of work:
 - Review of financial planning assumptions for 2024/25
 - Updates on recovery planning in significant areas of budget pressure including homelessness, prescribing, inpatient staffing and residential staffing
 - Transformation programmes including Maximising Independence, Day Care Service Review, Admin Review and a Review of Supported Living Services

5. Reasons for Major Budget Variances

5.1 Children and Families

- 5.1.1 Net expenditure is underspent by £0.015m.
- 5.1.2 Employee costs is underspent by £0.404m. Health Visiting is overspent by £0.622m primarily due to incremental drift and the level of trainees currently in the trainee programme. There is also an overspend of £0.781m due to the overtime requirement for absence cover in the Children's Houses. These are offset by a number of vacancies across the service. Recruitment plans continue to be progressed to fill vacancies as quickly as possible, however this is proving challenging in the current market.
- 5.1.3 Supplies and Service costs is overspent by £0.230m mainly relating to food provisions in the Children's Houses where costs have increased due to inflation, and equipment in the Children's Houses.
- 5.1.4 Third Party Payments is underspend by £0.839m. There are underspends in Provided Fostering of £1.032m, Purchased Placements of £0.502m and Personalisation of £0.182m, offset by overspends in Residential Schools of £0.756m and Kinship of £0.117m, all based on placement numbers.
- 5.1.5 Transfer Payments is overspent by £2.232m. There is an overspend in Direct Payments of £0.426m and Direct Assistance of £1.819m which reflects the level of demand and support required in these areas including supporting families with no recourse to public funds.
- 5.1.6 There is an over-recovery in income of £1.272m which mainly relates to UASC (Unaccompanied Asylum Seeking Children) income from the Home Office, the recovery of surpluses from Direct Payment accounts, and Scottish Government funding for Family Nurse Partnership provision.

5.2 Adult Services

- 5.2.1 Net expenditure is overspent by £6.681m.
- 5.2.2 This is mainly attributable to significant overspends within Homelessness (£5.258m) and Mental Health services (£5.038m).
- 5.2.3 Within Homelessness, the most significant overspend is in third party payments, £2.132m overspent, which is due to high demand in B&B accommodation, £1.980m of this relates to positive decisions for asylum seekers, where we are seeing a significant spike in activity, and £0.793m relates to the relaxation of Local Connection legislation. This increase in demand is also impacting on the cost of B & B accommodation available. Income is £3.345m under recovered. Housing Benefit subsidy is underrecovered by £7.444m, as a result of the high numbers in Bed & Breakfast accommodation. This is partly offset by additional funding for Syrian, Afghan

- and Ukrainian refugees of £4.083m. In addition, employee costs are £0.299m underspent due to vacancies which is partly offset by overtime costs.
- 5.2.4 Work continues to mitigate this overspend however demand is currently outstripping any progress being made in reducing costs.
- 5.2.5 An overspend of £5.038m in Mental Health is mainly attributable to a net overspend of £3.441m on employee costs. Due to consistently high numbers of enhanced observations, sick leave and vacancy cover, significant spend on agency and bank staff has been incurred. This is partially offset by underspends in Community and Specialist Services due to turnover and vacancies. Supplementary staffing expenditure was 4% lower than M7 in M8 as a result of localities reducing their use of bank/agency nursing in line with the agreed action plan.
- 5.2.6 Third party in Mental Health is overspent by £0.948m relating mainly to Extra Contractual Referrals (£1.463m). This is partly offset by an £0.515m underspend within residential/non-residential services due to under-occupancy and delays in starting the complex needs hospital discharge placements. Additionally, supplies are overspent by £0.548m due to pressures on various budget lines include drugs, taxis, equipment.
- 5.2.7 Employee costs are underspent by £2.329m due to vacancies, turnover and delays in recruitment. Third Party payments are underspent by £1.377m which is mainly due to an underspend in Residential/Non-Residential services because of delays in support packages starting and under-occupancy in services. Family Health Service is underspent by £0.149m and there is an over recovery of income of £0.580m for direct payment surplus recoveries.
- 5.2.8 Offsetting the underspends is an overspend on supplies mainly within Prison Healthcare (£0.733m) due to cost pressures associated with the new national pharmacy contract.

5.3 Older People and Physical Disability

- 5.3.1 Net expenditure is overspent by £0.519m.
- 5.3.2 Employee costs are underspent by £0.398m. There is an overspend in Residential & Day Care and Care Services of £0.795m due to the continued use of agency and overtime directly attributed to staff sickness levels and vacancies. Mental Health inpatients is overspent by £2.131m due to constant observations and cover for vacancies and staff sickness. These overspends are off-set with underspends due to vacancies across Older People. Recruitment plans continue to be progressed to fill vacancies as quickly as possible to reduce the use of agency and overtime, however this underspend reflects the challenges of recruiting in the current market.
- 5.3.3 There is an overspend of £0.686m in Transport due to increased vehicle hire charges and repair costs for an ageing fleet. Plans are currently underway to renew the fleet.

- 5.3.4 There is an underspend of £1.059m across Purchased Services. This is reflective of current demand levels which continue to be closely monitored and difficulties in finding external provision of low-level support to Carers.
- 5.3.5 There is an overspend of £1.957m in Supplies and Services. There is an overspend of £1.378m in the continence service driven by increased prices and demand, Equipu service is overspent by £0.344m due to increased demand. Overspends are partly offset by underspends in Alarms equipment of £0.174m which reflects current demand levels and underspends within Carers of £0.190m in respect of funding received for a short break bureau, this funding is no longer required due to a duplication with the service being developed by the Glasgow carers centres.
- 5.3.6 Income is over recovered by £0.638m mainly within residential long stay.

5.4 Resources

- 5.4.1 Net expenditure is underspent by £0.591m.
- 5.4.2 Employee costs is underspent by £1.013m due to a number of vacancies. Recruitment plans continue to be progressed to fill these as quickly as possible, however this is proving challenging in the current market.
- 5.4.3 Premises costs is overspent by £0.109m due to various minor works.
- 5.4.4 Transport costs is overspent by £0.230m mainly in relation to Transport and Support Service (TASS) in Technical Care and is linked to taxi and external vehicle hire.
- 5.4.5 Supplies and Services is overspent by £0.153m. Within Technical Care Services, Stairlifts are underspent by £0.384m with Equipu overspent by £0.391m and Ceiling Track Hoists by £0.080m, a net overspend of £0.081m based on activity levels and reflected by an over-recovery in income charged to partners below. The balance of £0.072m overspend is made up of a number of overspends in relation to Grounds Maintenance, Office Supplies, Health Centres and recharges for the Employee Assistance Scheme.
- 5.4.6 Income is over-recovered by £0.081m. Within Technical Care Services there is an over-recovery of £0.077m in respect of EquipU, Stairlifts, and Ceiling Track and Hoists and an under-recovery of £0.128m in respect of Linguistics. This net under-recovery is offset by an over-recovery of £0.126m due to staffing recharges.

5.5 Criminal Justice

5.5.1 Net expenditure is underspent by £0.621m. There is an underspend of £0.225m within the non-Section 27 grant funded element of the service due to turnover in employee costs and reduced spend on purchased services, and £0.395m within Section 27 for incentivisation funding resulting from the utilisation of Bail Supervision and Structured Deferred Sentences.

5.6 **Primary Care**

- 5.6.1 Primary Care is showing an overspend position of £6.221m.
- 5.6.2 There is an underspend within Prescribing Support Services and Health Improvement Teams of £0.433m, which is mainly as a result of vacancies.
- 5.6.3 Prescribing is currently reporting an overspend of £6.653m. Prescribing volumes and prices remain volatile and this represents a major area of risk for the IJB. Issues with the new national IT system are being resolved and data to the end of August has now been received. We await further analysis on this and once available will include details on price and volumes in future reports.

6. Forecasted Outturn and Recovery Plan

- In setting its budget in March, the IJB recognised that not all costs pressures could be fully funded from savings. This budget paper proposed the use of £17.166m of general reserves to fund the pressures identified within homelessness, prescribing and the risks associated with inflation. In the report to the IJB in November, a forecasted overspend of £24.3m for the year, net of recovery plans was reported. This would require to be met from general reserves.
- 6.2 A review of outturns has been undertaken and confirms that there is no change to the forecast from November and continues to forecast £24.3m overspent.
- 6.3 The Executive Team is currently working on reshaping of services and the updating of the medium-term financial strategy to support implementation. The IJB is working closely with Glasgow City Council to pursue funding to meet the consequences of this national government decision.

7. Action

- 7.1 The Chief Officer, along with the Health and Social Care Partnership Senior Management Team continues to manage and review the budget across all areas of the Partnership. The Executive Team is currently working on reshaping of services and the updating of the medium-term financial strategy to support implementation.
- 7.2 This will be the subject of updates to future IJB meetings.

8. Conclusion

8.1 Net expenditure is £12.194m higher than budget to date. In line with budget plans this will require to be funded from General Reserves.

9. Recommendations

- 9.1. The Integration Joint Board is asked to:
 - a) note the content of this report;
 - b) approve the budget changes noted in section 3;
 - c) note the update on the outturn and recovery plan in section 6; and
 - d) note the summary of current Directions (Appendix 2).

Direction from the Glasgow City Integration Joint Board

1	Reference number	240124-7
2	Report Title	Glasgow City Integration Joint Board Budget Monitoring for Month 8 and Period 9 2023/24
3	Date direction issued by Integration Joint Board	24 January 2024
4	Date from which direction takes effect	24 January 2024
5	Direction to:	Glasgow City Council and NHS Greater Glasgow and Clyde jointly
6	Does this direction supersede, revise or revoke a previous direction – if yes, include the reference number(s)	Yes (reference no: 291123-9) - supersedes
7	Functions covered by direction	All functions outlined in Appendix 1 of the report,
8	Full text of direction	Glasgow City Council and NHS Greater Glasgow and Clyde jointly are directed to deliver services in line with the Integration Joint Board's Strategic Plan 2020- 23, as advised and instructed by the Chief Officer and within the revised budget levels outlined in Appendix 1 including the implementation of the recovery plan.
9	Budget allocated by Integration Joint Board to carry out direction	As outlined in Appendix 1
10	Performance monitoring arrangements	In line with the agreed Performance Management Framework of the Glasgow City Integration Joint Board and the Glasgow City Health and Social Care Partnership.
11	Date direction will be reviewed	20 March 2024

Glasgow City Integration Joint Board

Budget Monitoring Statement to end October/Period 9 2023/24
