## **Glasgow City Integration Joint Board**

**Report By: Sharon Wearing, Chief Officer, Finance and Resources**

**Contact: Sharon Wearing**

**Phone: 0141 287 8838**

### **Glasgow City Integration Joint Board Budget Monitoring for Month 6 and Period 7 2024/25**

**Purpose of Report:**

This report outlines the financial position of the Glasgow City Integration Joint Board as at 20<sup>th</sup> September 2024 for Council and 30<sup>th</sup> September 2024 for Health and highlights any areas of budget pressures and actions to mitigate these pressures.

**Background/Engagement:**

The financial position of Glasgow City Integration Joint Board is monitored on an ongoing basis throughout the financial year and reported to each meeting of the Board.

**Governance Route:**

The matters contained within this paper have been previously considered by the following group(s) as part of its development.

HSCP Senior Management Team ☒

Council Corporate Management Team ☐

Health Board Corporate Management Team ☐

<b>Recommendations:</b>	<p>The Integration Joint Board is asked to:</p> <ul style="list-style-type: none"><li>a) Note the contents of this report;</li><li>b) Approve the budget changes noted in section 3;</li><li>c) Note the updated forecasted overspend of £17.5m as outlined in section 7;</li><li>d) Note the update on the recovery plan and approve the additional recovery actions required as outlined in section 8;</li><li>e) Approve the savings totalling £3.428m for delivery in 2024-25 and 2025-26;</li><li>f) Approve the redistribution of reserves as outlined in section 9; and</li><li>g) Note the summary of current Directions (Appendix 3).</li></ul>
-------------------------	--

### Relevance to Integration Joint Board Strategic Plan:

This report outlines expenditure against budget in delivery of the range of Health and Social Care services described within the Integration Joint Board Strategic Plan 2023-26.

### Implications for Health and Social Care Partnership:

<b>Reference to National Health &amp; Wellbeing Outcome(s):</b>	Not applicable at this time.
---	------------------------------

<b>Personnel:</b>	Recovery planning in place for 2024/25 includes tightening of vacancy controls which will further delay recruitment. A risk assessment will be undertaken which considers the risk of delaying recruitment and the mitigations which can be put in place to minimise this risk. This risk assessment will be considered as part of the decision making when implementing vacancy controls.
-------------------	--

<b>Carers:</b>	Expenditure in relation to carer's services is included within this report.
----------------	---

<b>Provider Organisations:</b>	Expenditure on services delivered to clients by provider organisations is included within this report.
--------------------------------	--

<b>Equalities:</b>	Within this report there is reference to proposals against which projected savings targets have been applied. The activity to achieve any proposed savings will be carried out with a focus on equalities and the extent to which any subsequent changes to policies and/or services may impact on any stakeholders, but in particular stakeholders with protected characteristics. Proposals have been subject to a preliminary Equality Impact Assessment to understand impacts, inform the development of the proposals, and to take steps to mitigate any impacts
--------------------	---

	<p>identified, wherever possible. The outcome of the equality considerations of the proposals within this report can be accessed on our website.</p> <p><a href="https://hscp.scot/Equalities-Impact-Assessments">Equalities Impact Assessments   Glasgow City Health and Social Care Partnership (hscp.scot)</a></p>
<b>Fairer Scotland Compliance:</b>	The expenditure on services supports the delivery a Fairer Scotland.
<b>Financial:</b>	All financial consequences are detailed within this report.
<b>Legal:</b>	Not applicable at this time.
<b>Economic Impact:</b>	Not applicable at this time.
<b>Sustainability:</b>	Not applicable at this time.
<b>Sustainable Procurement and Article 19:</b>	Not applicable at this time.
<b>Risk Implications:</b>	<p>The volatility of the drugs supply market, demand for services, cost of living crisis, acceleration of home office decisions and inflation continues to represent a significant financial risk to the IJB. This level of risk will require the IJB to keep its financial strategy under review to ensure services are delivered within the funding available. This financial risk will be monitored during 2024-25 and reported through the financial performance reports to the IJB and IJB Finance, Audit and Scrutiny Committee.</p> <p>The IJB is required to hold a contingency which is sufficient to enable the IJB to respond and continue to remain financially viable. The IJB will start 2024-25 with a general reserve of £8.442m which is 0.5% of net expenditure and below the target set at 2%.</p>
<b>Implications for Glasgow City Council:</b>	<p>The Integration Scheme clearly outlines the responsibilities of Partners and the IJB if spending exceeds budget plans. Partners will be kept updated on financial performance during the year.</p> <p>Within Homelessness, the net additional cost of arising from the impact of Home Office asylum decisions to date is £4.012m. The Council has provided the IJB with a commitment that the additional costs linked to asylum will be fully funded. This report builds in this additional funding from the Council.</p>

### 1. Purpose

- 1.1. This monitoring statement provides a summary of the financial performance of Glasgow City Integration Joint Board for the period 1<sup>st</sup> April 2024 to 20<sup>th</sup> September 2024 for Council and 30<sup>th</sup> September 2024 for Health.
- 1.2. It is based on information contained in the respective financial systems and includes accruals and adjustments in line with its financial policies.

### 2. Summary Position

- 2.1. Net expenditure is £5.781m higher than budget to date.
- 2.2. Appendix 1 shows the current budget variance by both care group and subjective analysis.

### 3. Budget Changes

- 3.1 Throughout the financial year, adjustments are made to the original approved budget as a result of additional funding allocations and service developments. To period Month 6/Period 7 the net expenditure budget has increased by £1.805m. The changes to the gross expenditure and income budgets are analysed in the table below.

<b>Explanation</b>	<b>Changes to Expenditure Budget</b>	<b>Changes to Income Budget</b>	<b>Net Expenditure Budget Change</b>
Realignment of Interpretating Cost Budgets	-£109,000	£109,000	£0
Correction of Corporate Landlord Charges from the Council	-£136,600	£136,600	£0
Income: Supported Employment	£177,588	-£177,588	£0

Minor income adjustment	£250,157	-£245,157	£5,000
<b>Total</b>	<b>£1,288,855</b>	<b>£516,539</b>	<b>£1,805,394</b>

### 4. Transformation Programme

- 4.1 The Integration Transformation Board continues to meet to secure the delivery of in-year savings. The overall savings target for 2024/25 is £29.934m. At this stage of the year, it is anticipated that actual savings realised will be £22.770m representing 76% of the target. The gap is primarily in relation to savings linked to self-directed support including access to social care, maximising independence, wait listing, transforming the balance of care in children and families and prescribing. These programmes are in the early stages of delivery and work continues to progress these savings to secure delivery in 2024-25. Part year implementation will impact on in year savings and this will be closely monitored by the Integration Transformation Board.
- 4.2 The unachieved savings target from prior years is £0.619m. At this stage of the year, it is anticipated that £0.529m is forecast to be achieved. The gap is in relation to linguistic service. This service has been required to be retendered following withdrawal of the successful bidder. This is currently underway.
- 4.3 The savings realised are reflected in the overall financial position reported in this monitoring statement.
- 4.4 The Integration Transformation Board has also been monitoring the transformation agenda to support future year budget planning. This includes the following areas of work:
- Updates on delivery of prior year and current year savings programmes
  - Updates on recovery planning in significant areas of budget pressure Including inpatient staffing and residential staffing
  - Transformation programmes including Maximising Independence, Day Care Service Review, and an Admin Review.

### 5. Reasons for Major Budget Variances

#### 5.1 Children and Families

- 5.1.1 Net expenditure is overspent by £1.461m.

## OFFICIAL

- 5.1.2 Employee costs are overspent by £0.622m. Health Visiting is overspent by £1.236m primarily due to lower than budgeted turnover and an over establishment in the service. There is also an overspend of £0.779m due to the overtime requirement for absence cover in the Children's Houses. These are offset by an underspend of £1.347m due to a number of vacancies across the service. Recruitment plans continue to be progressed to fill vacancies as quickly as possible, however this is proving challenging in the current market.
- 5.1.3 Third Party Payments is overspent by £0.143m. There is an overspend in Residential Schools of £0.652m offset by underspends in Kinship of £0.328m, Purchased Placements £0.034m, Shared Care and Short Breaks £0.091m and Personalisation of £0.055m, all based on placement numbers and demand.
- 5.1.4 Transfer Payments is overspent by £1.120m. There is an overspend in Direct Assistance of £1.158m which reflects the level of demand and support required in these areas including supporting families with no recourse to public funds. This is partially offset by an underspend on Direct Payments of £0.048m in relation to Children with Disabilities.
- 5.1.5 There is an over-recovery in income of £0.301m, £0.133m of which relates to UASC (Unaccompanied Asylum-Seeking Children) income from the Home Office and £0.198m in relation to the recovery of Direct Payment surpluses.

## 5.2 Adult Services

- 5.2.1 Net expenditure is overspent by £3.662m.
- 5.2.2 Employee Costs are overspent by £1.283m. This is mainly attributable to Mental Health services, where employee costs are overspent by £1.364m. Within Inpatient services, expenditure of £7.585m on bank nursing staff has been incurred due to consistently high numbers of enhanced observations, sick leave and vacancy cover, and is partly offset by the high number of trained nursing vacancies. Workforce development programs have been implemented to address this and are expected to impact in the second half of the financial year. There is an underspend within Community and Specialist Services (£0.135m) attributable to turnover and additional underspends within the localities (£0.249m).
- 5.2.3 In addition, Public Protection is overspent by £0.770m, mainly because of unachieved savings within Connect Services. These overspends are partly offset by underspends within ADRS (£0.210m), Learning Disability (£0.319m) and Prison Healthcare (£0.381m) because of vacancies.
- 5.2.4 Supplies and Services are overspent by £0.925m. Prison Healthcare is overspent by £0.377m mainly due to cost pressures associated with the new pharmacy services contract. Within Mental Health Services, supplies are overspent by £0.614m due to legal fees and pressures on various budget lines including environmental house cleans, drugs, taxis and equipment and is

## OFFICIAL

## OFFICIAL

reflective of demand. ADRS is underspent by £0.109m across various budgets including clinical sundries, professional fees and travel.

- 5.2.5 Purchased services is overspent by £2.572m. Within this, Learning Disabilities and Mental Health are reflecting an overspend of £1.603m due to demand for SDS options 2&3 exceeding the available budget and the impact of savings targets not yet being delivered. Extra Contractual Referrals are overspent by £0.769m and is reflective of demand.
- 5.2.6 These overspends are partly offset by income over-recovery of £1.034m mainly within Learning Disability due to recovery of direct payment surpluses.
- 5.2.7 Within Homelessness, the net additional cost of arising from the impact of Home Office asylum decisions to date is £4.012m. The Council has provided the IJB with a commitment that the additional costs linked to asylum will be fully funded. This report builds in this additional funding from the Council.

### 5.3 Older People and Physical Disability

- 5.3.1 Net expenditure is underspent by £1.481m.
- 5.3.2 Employee costs are underspent by £0.228m. Health pays are overspent within Mental Health Inpatients and Elderly Mental Health due to the use of bank and agency to cover staff sickness and vacancies. In addition, budgeted turnover savings have not been achieved which has contributed to the pressure combined at £0.532m over. Care Services and Locality front line services are underspending by £0.813m, overspends in Agency and overtime to cover vacancies and staff absence are offset by underspends in core salary lines. Recruitment plans continue to be progressed to fill vacancies as quickly as possible to reduce the use of agency and overtime, however this underspend reflects the challenges of recruiting in the current market.
- 5.3.3 There is an overspend of £0.356m in Transport due to increased vehicle hire charges and repair costs for an ageing fleet. Repair costs are expected to reduce with the continued roll out of the new fleet.
- 5.3.4 Income is over recovered by £0.435m mainly within non-residential fees and charges.

### 5.4 Resources

- 5.4.1 Net expenditure is underspent by £0.818m.
- 5.4.2 Employee costs is underspent by £0.613m due to a number of vacancies. Recruitment plans continue to be progressed to fill these as quickly as possible, however this is proving challenging in the current market.

OFFICIAL

## OFFICIAL

- 5.4.3 Transport costs is overspent by £0.104m mainly in relation to Transport and Support Service (TASS) in Technical Care and is linked to taxi and external vehicle hire required as a result of vacancies. This will reduce as recruitment progresses.
- 5.4.4 Supplies and Services is underspent by £0.825m. Technical Care Services is underspent by £0.246m based on activity levels and demand for equipment and this is offset by an under-recovery in income charged to partners below. There is an underspend of £0.780m across various lines including purchase of services and commitments linked to inflation pressures. This is offset by an overspend of £0.202m in IT licenses due to increases in contract prices.
- 5.4.5 Income is under-recovered by £0.418m. Within Technical Care Services there is a net under-recovery of £0.454m in respect of EquipU, Stairlifts, and Ceiling Track and Hoists. There is an over recovery in training and Access to Work income of £0.053m.

### 5.5 Criminal Justice

- 5.5.1 Net expenditure is underspent by £0.277m. This relates to the non-Section 27 grant funded element of the service and is due to turnover in employee costs and reduced spend on purchased services.

### 5.6 Primary Care

- 5.6.1 Primary Care is showing an overspend position of £3.234m.
- 5.6.2 There is an underspend within Prescribing Support Services, Clinical Directors and Health Improvement Teams of £0.536m, which is mainly as a result of vacancies.
- 5.6.3 Prescribing is currently reporting an overspend of £3.770m. An ambitious £8.3m savings programme has been targeted for 2024-25. Delivery commenced in April 2024 and good progress is being made, however as the programme commenced in April it will take time to build the momentum which will secure delivery. This delay represents £1.682m of the overspend. Pharmacy teams and GPs are working hard to secure these savings and progress will continue to be monitored by the relevant management teams. Part of the saving had assumed a reduction from Apixaban moving from a brand to generic pricing. The reduction is less than has been forecast. This has been out with the control of the IJB.
- 5.6.4 The remaining overspend of £2.088m is because of a combination of an increase in volumes (1.13%), global pricing (2.1%) and pharmacy first. This is further explored in section 7.2.

## OFFICIAL

### 6. Reserve Balances

- 6.1 At 1 April the IJB has a balance of £8.442m in general reserves. As part of the budget the IJB agreed £9.331m of additional recurring savings to support budget smoothing of the planned increases to superannuation costs in 2026/27. If savings are fully delivered and spend is contained within budgets this will have an in-year benefit of £9.331m which could be used to increase general reserves at the end of March 2025 to £17.773m. However, the current overspend position represents a risk to this strategy.
- 6.2 If spend had remained on target, to date £4.455m would have been available to be transferred to reserves. However, because of the current overspend of £5.781m instead of general reserves being increased they are being reduced by the net £1.333m, representing a revised balance to date of £7.109m.

### 7. Forecasted Outturn

- 7.1 At the September IJB a forecasted overspend of £11.6m was reported and a full recovery plan put in place to secure financial balance.
- 7.2 A review of outturns has been undertaken and projected spend has increased from the £11.6m reported in September to an overspend of £17.5m, before the impact of recovery plans. This increase is solely due to an increase of £5.9m in prescribing costs. £1.6m of this increase is because of volumes being 1.1% higher than budget assumptions and is reflective of increasing demand, list sizes and 0.8% more prescribing days in 2024/25. £3.1m relates to the impact of global pricing which on average has seen an increase of £0.23 per item than budget assumptions, which represents an increase of 2.1%. The remaining balance relates mainly to the costs of prescribing first which was introduced in May 2022 with no additional funding provided.

### 8. Recovery Plan Update

- 8.1 In September the IJB agreed a £11.6m recovery plan to deliver a balanced budget. Progress against the recovery plan is subject to monitoring and will be subject to future reporting to the IJB. The Executive Team will continue to progress the remainder of the recovery balance to secure a balanced position by the year end.
- 8.2 The overarching recovery plan is also kept up to date and the following update can be provided in relation to significant movements in the plan. This includes additional proposals to recover the increased outturn reported at section 7.

**OFFICIAL**

	Approved at Sept IJB	Updated Plan/New Approvals Required	Movement
Recovery Plan	£millions	£millions	£millions
<b>Recovery Plan Agreed at September IJB</b>			11.6
<b>2025-26 Early Delivery of Savings</b> Proposals have started to be developed to support the 2025-26 budget setting process. It is proposed to bring delivery of some of these savings forward to 2024-25 to aid with recovery. A target of £1.0m was set as part of the recovery plan. Plans for £0.6m have been developed and full details are provided in section 9.	1.0	0.6	-0.4
<b>Review of Earmarked Reserves</b> A review of commitments made against earmarked reserves has been undertaken and it is proposed to transfer this to general reserves to support funding of the increase in the projected overspend at year end.	0.5	6.5	6.0
<b>Primary Care Spending Controls</b> This will include a review of expenditure for all services and identify areas where spend can be reduced in agreement with operational leads. Spend will be limited to essential spend only.		0.3	0.3
<b>Revised Recovery Plan</b>			17.5

**9. Early Delivery of 2025-26 Savings**

- 9.1 The medium-term financial outlook estimated in March a funding gap of £28m for 2025-26. Early indications are that the funding gap will be higher than this. This will require the IJB to approve savings to deliver a balanced budget for 2025/26.
- 9.2 In September, the IJB agreed that as part of recovery planning that some proposals would be brought forward early to this IJB to enable delivery to commence in the last quarter of the financial year to contribute to financial recovery. The table below details savings of £3.428m, of which £0.571m can be delivered in 2024/25. Full details are included in Appendix 2.

**OFFICIAL**

Savings Description	Revenue Saving Proposals £000's		FTE Impact		Total FTE Impact
	2024/25	2025/26	2024/25	2025/26

<b>Total</b>	<b>571</b>	<b>2,857</b>	<b>14.71</b>	<b>18.40</b>	<b>33.11</b>

## 10. Review of Earmarked Reserves

- 10.1 A review of earmarked reserves has also been undertaken to support recovery planning. Initially a target of £0.5m was identified for this proposal. However following a review of commitments against reserve funds, it is proposed to release £6.5m of earmarked funds to general reserves. Details are included in the table below.

<b>Proposed Redistribution of Earmarked Reserves to General Reserves</b>	<b>£000's</b>
Health and Social Care Connects – Final Year of Transition Funds – Spend Less than Provision Made.	2,900
Maximising Independence – Final Year of Transition Funds – Spend Less than Provision Made	1,606
Transition from Analogue to Digital – Commitments Less than Provision Made	2,000
<b>Total</b>	<b>6,506</b>

## OFFICIAL

- 10.2 If approved, it is proposed that this is used as part of recovery planning to fund the revised outturn position of £17.5m included within this report.

### **11. Action**

- 11.1 The Chief Officer, along with the Health and Social Care Partnership Senior Management Team continues to manage and review the budget across all areas of the Partnership. The Executive Team will monitor progress in delivering the recovery plan to reduce the current overspend and bring spend back in line with budgets.
- 11.2 This will be the subject of updates to future IJB meetings.

### **12. Conclusion**

- 12.1 Net expenditure is £5.781m higher than budget to date.

### **13. Recommendations**

- 13.1 The Integration Joint Board is asked to:
- a) Note the contents of this report;
  - b) Approve the budget changes noted in section 3;
  - c) Note the updated forecasted overspend of £17.5m as outlined in section 7;
  - d) Note the update on the recovery plan and approve the additional recovery actions required as outlined in section 8;
  - e) Approve the savings totalling £3.428m for delivery in 2024-25 and 2025-26;
  - f) Approve the redistribution of reserves as outlined in section 9; and
  - g) Note the summary of current Directions (Appendix 3).

## 2025/26 Savings Proposed for Early Delivery in 2024/25

<b>Savings Proposals</b>	<b>Description</b>	<b>2024-25 £ millions</b>	<b>2025-25 £ millions</b>
Equipu - Provision of In-House Repairs and Maintenance Service	<p>An extensive review of the Community Equipment, Stairlifts and Track Hoists services has been undertaken. As part of this review the current arrangements for the repairs and maintenance to equipment was undertaken and it is proposed that a proportion of Equip U's annual servicing and repairs, currently undertaken by external contractors, should be brought in-house and carried out by the Community Equipment Service.</p> <p>The benefits of this are the Community Equipment Service will achieve better control of accurate and up to date records, greater accountability and traceability of the work carried out, improve response times, reduce the number of visits to service user's homes and reduce charges related to failure to gain access. This proposal will generate an overall saving to the Equipu Partnership of £0.259m. £0.132m represents Glasgow share of this saving.</p>	0.032	0.100
Maximising Independence - Transforming the Balance of Care including a Review of Residential Services	The priority for Children's Services is to support families to live independently in the community, maintaining links with their community and schools. Through good quality family support, and innovative responses to families at points they are struggling – for example, arranging short breaks for young people with support from children's house practitioners and coordinated multi-agency planning using a model of 'pod supervision' to ensure that agencies are consistent in their understanding and response to families'	0.100	2.386

	<p>needs – the Service is continuing to sustain a shift in the balance of care. Through ongoing work to scale these practices, it is anticipated that the number of children and young people in out of authority placements will continue to decrease, with a review of the residential service incorporating flexible capacity to respond to young people's needs at points of crisis. Practice within residential care has substantially contributed to the success of the transformation agenda over the last 8 years, particularly in relation to the nurture programme and development of a shared language and approach to understanding and meeting children and young people's needs. The review of the current model of residential services has highlighted an opportunity to close one children's house which no longer meets the needs of our children. This can be delivered as a result of review of young people's care plans and identification of appropriate move on opportunities, and the general pattern of reducing placement numbers across the estate.</p>		
Service Redesign for Halt and Family Support Project	<p>The Halt and the Family Support Project both sit under the principal officer for child protection. Halt work with children and young people who are involved in sexually harmful behaviour. Family Support Service primary function is to complete risk assessments with non-offending parents to establish parental protectiveness and work with survivors of sexual abuse.</p> <p>It is proposed to undertake a review of this service to understand volume of cases of both teams, the impact of the service on effectiveness and outcomes. It is anticipated that this will reduce the staffing compliment across the two</p>	0.093	0.222

	teams. The saving proposed for 2024-25 can be delivered through vacancies.		
Removal of 1 Post from Older People Strategic Planning Team	<p>The Telecare Referral team sits within Older People Planning and manages new referrals into the City's community alarms/telecare service and telehealth services.</p> <p>Given the impending digitisation of telecare it is anticipated that service user numbers will decrease and therefore the volume of work for the Telecare Referral team will reduce consequently. This proposal will result in the reduction of 1 post within the team and can be managed through a recent retiral.</p>	0.032	0.019
Removal of Vacant Posts (Older People Services)	A review of vacant posts across a range of services within Older People has been undertaken. This identified a number of vacancies which have been created as a result of work life balance and part time working requests which have reduced the hours that are being worked. This reduction is being accommodated within the existing team structures it is therefore proposed to reduce these permanently from the establishment.	0.091	0.000
Review of Support Services	A review of a number of support services within Resources will be undertaken with the aim of reforming services to deliver integrated support services which meet the business needs not only now but over the medium term. This is also to ensure that support services remain proportionate to the size of the organisation and is in recognition of the financial challenges facing the HSCP. Services within scope include:-	0.197	0.156
