Glasgow City Alcohol and Drug Partnership Annual Report 2022/2023

Purpose of Report:

To advise the Integration Joint Board (IJB) of the Glasgow City Alcohol and Drug Partnership (GCADP) Annual Report 2022/23, to note the activity towards the national mission priorities and the GCADP strategy 2020-2023 milestones.

Background/Engagement:

The GCADP is required to complete and submit an annual report based on a Scottish Government template. The form is designed to capture progress during the financial year 2022/2023 against the Scottish Government's National Mission priorities.

The GCADP annual report is completed by the relevant ADP subgroups, whose membership includes people with lived experience and families.

Governance Route:

The matters contained within this paper have been previously considered by the following group(s) as part of its development.

Recommendations:	<p>The Integration Joint Board is asked to:</p> <ul style="list-style-type: none">a) note the contents of the Glasgow City ADP Annual Report 2022/23;b) note the ongoing quarterly performance infographics highlighting GCADP partners' activity against the National Mission priorities; andc) note the GCADP Strategy 2020-2023 milestones.
-------------------------	--

Relevance to Integration Joint Board Strategic Plan:

The detail captured in the ADP Annual Report contributes towards priority 1 of the Glasgow City IJB/HSCP for health and social care- prevention, early intervention and harm reduction (p27, sect 1)

Implications for Health and Social Care Partnership:

Reference to National Health & Wellbeing Outcome(s):	The ADP activity contributed to outcomes 1, 2,3,4,5, 6,7, 8 and 9.
---	--

Personnel:	None
-------------------	------

Carers:	Family support and carers groups are consulted on the ADP planned activity through membership of our sub group structure and the ADP Families Reference Group.
----------------	--

Provider Organisations:	The involvement of provider organisations in delivering ADP activity is essential. The voluntary sector remain key members of the ADP.
--------------------------------	--

Equalities:	Equality impact assessments have been undertaken for activity as required.
--------------------	--

Fairer Scotland Compliance:	ADP activity contributes to alleviating the socioeconomic disadvantage experienced across the city, by reducing harms caused by alcohol and drugs and supporting more people into recovery.
------------------------------------	---

Financial:	The investment detailed is fully funded from ADP funding secured from the Scottish Government.
-------------------	--

Legal:	No legal issues.
---------------	------------------

Economic Impact:	The reported activity will have had a positive economic impact; reducing harms to communities, reducing presentations at A&E and GP surgeries, reducing crime and encouraging people into recovery and employment.
-------------------------	--

OFFICIAL

OFFICIAL

Sustainability:	The ADP continues to prioritise investment in activity that will sustain and grow recovery in Glasgow City.
------------------------	---

Sustainable Procurement and Article 19:	None
--	------

Risk Implications:	The reported activity is focused on reducing the harms caused by alcohol and drugs, mitigating the risk for individuals and communities.
---------------------------	--

Implications for Glasgow City Council:	None
---	------

Implications for NHS Greater Glasgow & Clyde:	None

1. Purpose

- 1.1. To advise the Integration Joint Board (IJB) of the Glasgow City Alcohol and Drug Partnership (GCADP) Annual Report 2022/23, to note the activity towards the national mission priorities and the GCADP strategy 2020-2023 milestones.

2. Background

- 2.1 The GCADP is required to complete and submit an annual report based on a Scottish Government template (Appendix 1). The form is designed to capture progress during the financial year 2022/2023 against the National Mission Outcomes Framework.
- 2.2 The GCADP annual report is completed by the relevant ADP subgroups, whose membership includes individuals with lived experience and families.
- 2.3 The GCADP Annual report 2022/23 was approved by the ADP Strategic Group on 20th June 2023. The deadline for submission to the Scottish Government has been extended to 28th June 2023.

3. ADP Performance and Milestones

- 3.1 The ADP Annual Report is an operational document which does not capture outcomes or performance. Quarterly performance reporting via high level

infographics aligned with the six National Mission priorities are described in the [November 2022](#) report and a summary of these can be seen in **Figure 1** attached. These high-level infographics give context to the scale of activity and complexity of the changing landscape of drug and alcohol services in the city and endeavour to promote the work of all ADP partners including within the HSCP, third sector and beyond.

- 3.2 As the ADP comes to the end of the term of the current strategy, 2020 - 2023, we have captured many, but not all, of the milestones in **Figure 2** attached.

4. Recommendations

- 4.1. The Integration Joint Board is asked to:
- a) note the contents of the Glasgow City ADP Annual Report 2022/23;
 - b) note the ongoing quarterly performance infographics highlighting GCADP partners' activity against the National Mission priorities; and
 - c) note the GCADP Strategy 2020-2023 milestones.

Alcohol and Drug Partnership (ADP) Annual Reporting Survey: 2022/23

This survey is designed to collect information from all ADPs across Scotland on a range of aspects relating to the delivery of the National Mission **during the financial year 2022/23**. This will not reflect the totality of your work but will cover those areas where you do not already report progress nationally through other means.

The survey is primarily composed of single option and multiple-choice questions, but we want to emphasise that the options provided are for ease of completion and it is not expected that every ADP will have all of these in place. We have also included open text questions where you can share more detail.

We do not expect you to go out to services in order to respond to questions relating to activities undertaken by them in your area. Where questions refer to service level activities, we are interested in the extent to which you are aware of these at an ADP level.

We are aware of some element of duplication with regards to questions relating to MAT Standards and services for children and young people. To mitigate this, we've reviewed the relevant questions in this survey and determined the ones that absolutely need to be included in order to evidence progress against the national mission in the long-term. While some of the data we are now asking for may appear to have been supplied through other means, this was not in a form that allows for consistently tracking change over time.

The data collected will be used to better understand the challenges and opportunities at the local level and the findings will be used to help inform the following:

- The monitoring of the National Mission;
- The work of a number of national groups including the Whole Family Approach Group, the Public Health Surveillance Group and the Residential Rehabilitation Working Group, amongst others; and
- The priority areas of work for national organisations which support local delivery.

The data will be analysed and findings will be published at an aggregate level as [Official Statistics](#) on the Scottish Government website. All data will be shared with Public Health Scotland to inform drug and alcohol policy monitoring and evaluation, and excerpts and/or summary data may be used in published reports. It should also be noted that the data provided will be available on request under freedom of information regulations and so we would encourage you to publish your return.

The deadline for returns is Monday 19th June 2023. Your submission should be signed off by the ADP and the IJB, with confirmation of this required at the end of the questionnaire. We are aware that there is variation in the timings of IJB meetings so please let us know if this will be an issue.

If you require clarification on any areas of the survey or would like any more information, please do not hesitate to get in touch by email at substanceuseanalyticalteam@gov.scot.

- ☒ Psychosocial counselling
- ☐ None
- ☐ Other (please specify):

Q12b) What are the main barriers to providing volunteering and employment opportunities to people with lived/living experience within your area?

[open text – maximum 2000 characters]

Feedback from employability services has been that the biggest barrier to offering volunteering and employment opportunities is the PVG process. They note that they cannot offer opportunities to people with certain previous convictions and that the long waiting times for Disclosure Scotland to process applications is a barrier.

- In each of the recovery communities, where potential barriers to volunteering have been encountered, solutions have been sought to promote equality of access to opportunities. Some examples include:
 - robust local pathways to ensure volunteers have recovery capital to sustain volunteering successfully (or supported to achieve level of "stability" required)
 - access to volunteer expenses- issues with processing new applications to SPT so local processes established till bus pass is available which may include linking in with care manager for a bus pass/tokens/ use PIP/DLA mobility component/ recovery communities will reimburse bus fares
 - Childcare has been identified as a barrier to parents engaging with volunteering opportunities (particularly preschool children). Solution has been developed to address partnership with Children 1st – current 6-week pilot sensory room in Ibrox new recovery café. Plan for further discussion/views of parents in recovery with the aim of developing a child friendly recovery café drop in for parents in recovery (whole family approach to recovery).

Q13) Which organisations or groups are you working with to develop your approaches and support your work on meaningful inclusion? (select all that apply)

[multiple choice]

- ☒ MAT Implementation Support Team (MIST)
- ☒ Scottish Drugs Forum (SDF)
- ☐ Scottish Families Affected by Drugs and Alcohol (SFAD)
- ☒ Scottish Recovery Consortium (SRC)
- ☐ None
- ☒ Other (please specify): Families Affected by drug and alcohol use

Cross cutting priorities: Stigma Reduction

Q14) Do you consider stigma reduction for people who use substances and/or their families in any of your written strategies or policies (e.g. Service Improvement Plan)?

[single option]

- ☒ Yes (please specify which): ADP Strategy 2020-23
- ☐ No
- ☐ Don't know

Q15) Please describe what work is underway to reduce stigma for people who use substance and/or their families in your ADP area.

[open text – maximum 2000 characters]

Local Health Improvement colleagues are currently joint working with the ADP support team to look at meaningful ways to tackle stigma. This work is still in initial planning stages however will seek to address stigma within the general local population as well as from the drug and alcohol sector. Any developments will be made in consultation with the four reference groups established by the ADP. Glasgow is also working closely with the National Collaborative.

Freed Up events (alcohol and drug free social events) run in city centre venues featuring high profile celebrities

Recovery Communities are grass roots groups that offer peer support, social connection and recovery focussed events in local communities. Over 1500 people attend recovery cafes/groups a week across the city.

Stigma is a key cross cutting priority of our ADP strategy and is considered right across the ADP subgroup structure.

Fewer people develop problem substance use
