

Your voice matters and that's why we need your help in shaping and contributing to our LEFs and Health and Social Care agenda

We will be recruiting new members and relaunching Locality Engagement Forums (LEFs) across all 3 localities in April 2022 and we want to hear from you and what you want to discuss at the LEF April 2022 Engagement Sessions. The information gathered through this questionnaire will shape the focus of these sessions and some of the areas of Health and Social Care services covered and engaged on.

The Health and Social Care Partnership (HSCP) in Glasgow City is responsible for the planning, design and delivery of children and families, adult and older people's services. YOUR VOICE MATTERS therefore it is vital that members of the community are included in the planning and design of services to ensure that they meet the needs of communities and individuals. Locality Engagement Forums exist to provide a space for members of the community to come together to discuss issues, themes and listen to what is happening and relevant; in the South, North East and North West of Glasgow.

We are currently planning the consultation and engagement activity for the new Glasgow City HSCP Strategic Plan, which will set out the priorities and shapes the services provided by the partnership over the next few years, therefore it has never been more vital to have your voice heard.

**For Non-English speakers please contact:
callum.lynch@ggc.scot.nhs.uk to get support and translations.**

This is a chance to represent yourself, family members, your communities and others around you. Please get involved and have your voice heard.
