## **1. Foreword**

This is the eleventh annual report from the Glasgow MAPPA (Multi Agency Public Protection Arrangements). Multi Agency Public Protection Arrangements (MAPPA) is a well established process in Glasgow which is targeted at managing the risk that registered sexual offenders and restricted patients present to communities.

Whilst the arrangements are now familiar with all parties in Glasgow, MAPPA is subject to ongoing review and scrutiny both locally and nationally. At a national level the Scottish Government and Chairs of local Strategic Oversight Groups meet on a quarterly basis to discuss strategic planning, exchange practice issues and themes and ensure the guidance in relation to the MAPPA arrangements is as robust as it can be.

At a local level, Strategic Oversight Groups strive to ensure that MAPPA is performing to agreed performance standards; that organisations are working together effectively to reduce risk and strategic planning is, where required, improving performance. The National Strategic Oversight Group – consisting of Chairs of local Strategic Oversight Groups continue to meet to reflect on the current guidance, develop practice and exchange thoughts and ideas on how practice might be developed across the country.

This annual report concludes that agencies in Glasgow continue to work well together to meet the demands of MAPPA work in Glasgow, and to collectively manage the inherent risks and challenges involved in this form of public protection. The report demonstrates that we continue to meet performance targets. On behalf of the Glasgow Strategic Oversight Group I would wish to reiterate our commitment to continue to strive to achieve best practice in protecting the public in Glasgow.

Prior to the end of this years reporting period the Corona Virus Pandemic and the subsequent Government restrictions that were put in place to manage the spread of the virus impacted significantly on the way in which MAPPA in Glasgow operates. The Responsible Authorities in Glasgow were quick to respond to this pandemic and a series of contingency measures were urgently put in place to manage the risk that offenders present and to ensure that the protection of the public remained paramount.

Pat Togher  
Chair Glasgow Strategic Oversight Group

## **2.What is MAPPA in Glasgow?**

Multi Agency Public Protection Arrangements (MAPPA) are a set of statutory arrangements of which the primary purpose is to maintain public protection and the reduction of serious harm. The protection of children, adults at risk and other members of the public are paramount. It is a structure by which registered sex offenders, mentally disordered restricted patients and other offenders by who for their reason of their conviction pose a risk of serious harm to the public are managed through the effective sharing of relevant information and the assessment and management of that risk.

MAPPA was introduced in 2007 under requirements of the Management of Offenders Act 2005 Section 10 and 11 and is delivered under National Guidance which was revised in 2016. The Guidance defines the Responsible Authorities and those with a Duty to Cooperate.

The Responsible Authorities within Glasgow are

- Glasgow City Council
- Police Scotland (G Division)
- Scottish Prison Service
- Greater Glasgow and Clyde NHS

The NHS Health Boards are Responsible Authorities in respect of Restricted Patients only, they are a Duty to Cooperate Agency in relation to Sex Offenders and Category 3 Offenders.

The Duty to Cooperate (DTC) Agencies include:

- Scottish Children's Reporter Administration
- Electronic Monitoring Providers
- DWP
- Registered Social Landlords
- Any person/organisation providing services to or on behalf of a Responsible Authority

The DTC agencies are required to provide, accept and share information to support the risk management of any offender subject to MAPPA.

## **Who is subject to MAPPA?**

MAPPA in Scotland has always been utilised to coordinate the management of those offenders in the community required to notify under the Sexual Offences Act 2003, commonly referred to as Registered Sex Offenders and those offenders deemed Restricted Patients under Mental Health Legislation. Restricted Patients are persons detained in hospital under a Compulsion Order with a Restriction Order. This means they have usually committed an offence punishable by imprisonment but as a result of a mental health disorder are not imprisoned but ordered to be detained in hospital for treatment, without limit of time.

On the 31 March 2016 the Scottish Government enacted category 3 of MAPPA, thereby bringing a further group of offenders known as “Other Risk of Harm Offenders” under the arrangements. This group of offenders is defined as being those who have been convicted of an offence, and by reason of that conviction are required to be subject of supervision in the community by any order, enactment or licence and are assessed by the responsible authorities as posing a high or very high risk of serious harm and the risk is assessed as requiring multi agency management at Level 2.

### **How the Multi Agency Public Protection Arrangements Work**

Information about MAPPA offenders is shared across involved agencies. The risks an offender is assessed to pose – and the actions intended to manage the risk – are detailed within a multi-agency risk management plan. The practical operation of MAPPA is performed within pre-set meeting structures and there are 3 different MAPPA levels.

**Level 1: Routine Risk Management.** – In the vast majority of cases, the offender will be managed under the routine arrangements applied by the agency or the agencies with supervisory responsibility ie by police alone or jointly with Criminal Justice Social Work and subject to regular MAPPA review meetings. In the case of Restricted Patients NHS will be the lead agency.

**Level 2: Multi agency risk management.** This process is implemented where Risk Management Planning requires the involvement of multi agencies to actively reduce the risk of serious harm posed by an offender or where that management is complex and resource intensive. Those managed at level 2 will be subject of regular MAPPA review meetings through which a Multi-Agency Risk management Plan is formulated, implemented and monitored.

**Level 3: Multi Agency Public Protection Panel.** From time to time, cases arise that present such a high level of risk to the public that or where the level of resources required to effectively manage the offender in the community is substantially beyond what could be considered normal. Often described as the critical few the risk management strategies for these offenders require more senior representatives of the agencies involved to be actively involved in the formulation, implementation and monitoring of risk management plans.

The overarching objective of MAPPA is to protect the public from harm. This includes having the correct resources in place to enable people who have committed offences to meaningfully work on changing their behaviour. This is where multi agency public protection arrangements are not just about restrictions and the management of risk. They focus on ensuring people have access to the services they need, whether these be related to health, housing, substance misuse or reducing their offending.

Any person assessed as presenting a high risk of harm to the public is subject to very strict monitoring and supervision to reduce the risk. This can include living in approved accommodation, having restrictions about going to certain places or contact with certain people. Offenders subject to MAPPA must report regularly to the Police or their Supervising Officer.

### **Governance of MAPPA in Glasgow**

MAPPA is overseen by the Strategic Oversight Group (SOG) in Glasgow and includes representatives at a senior level from the all responsible authorities. The group meets on a quarterly basis and oversees the performance and strategic planning of MAPPA. The Strategic Oversight Group has endorsed a Business Plan to manage the delivery of core MAPPA functions. This is reviewed and updated annually.

The MAPPA Operational Group meets on a six weekly basis and includes representation at an appropriate level from the Responsible Authorities involved in the operation of MAPPA.

In addition given the unique complexities that exist for Glasgow in the housing of Sex Offenders a NASSO Group (National Accommodation for Sex Offenders Group) meets on a quarterly basis to progress the challenge of accommodation those subject to notification requirements.

### **3. Significant Case Review**

It is recognised that on occasions offenders managed under the MAPPAs will commit or attempt to commit, further offences and when this happens the MAPPAs process should be examined to ensure that the policies and actions employed by the responsible authorities and duty to cooperate agencies were not flawed and where it has been identified that these could be improved plans are put in place promptly to do so.

The Responsible Authorities have a specific duty to report every incident which falls within the criteria of this guidance by way of an Initial Notification. These notifications arise when:

- An offender managed through MAPPAs is charged with an Offence which resulted in the death of or serious harm to another person, or an offence listed in Schedule 3 of the Sexual Offences Act 2003
- Significant concern has been raised about professional and or service involvement, or lack of involvement in respect of the management of an offender under MAPPAs at any level
- Where it appears that a Category 1 or Category 3 offender being managed under MAPPAs is killed or seriously injured as a direct result of his / her status
- Where an offender currently being managed under MAPPAs has died or been seriously injured in circumstances likely to generate significant public concern

Within Glasgow during the reporting period 2019 /20 there were sixteen instances of further sexual offending which resulted in an Initial Notification to the SOG. In fourteen of these cases the decision was made not to review further. This was because good risk management procedures were already in place and / or there was no escalation in offending behaviour. In two cases further information was sought by the SOG chair regarding specific issues to provide reassurance in terms of the risk management strategies used.

**4. Performance in Comparison to National Targets**

- 90% of level 3 MAPPA cases to be reviewed no less than once every six weeks. In the year 2019-20 Glasgow achieved **96%**. There was one Level 3 Meeting which was held a week late due to the Chairs availability.
- 85% of MAPPA level 2 cases reviewed no less than once every 12 weeks; Glasgow achieved **96%**. There were two meetings which were outwith the 12 week timeframe. This was due to administrative issues.
- Disclosure to be considered and the decision to be recorded in the minutes at 100% of level 2 and 3 MAPPA meetings; Glasgow achieved **100%**.
- An initial Level 2 meeting must be held within 20 days of referral from community; Glasgow achieved **100%**.
- Level 2 meeting must be held prior to release from prison. Glasgow achieved **97%**. One Level 2 meeting was held post release. This was due to an individual being unexpectedly released from custody.
- Level 3 MAPPA must be held within 5 working days of referral. There were no MAPPA level 3 referrals from the community over the past year.
- All minutes of levels 2 and 3 meetings should be produced within 5 working days and returned, signed off by the Chair within 5 working days. Glasgow achieved **96%**. There were four instances of minutes not being signed off by the chair within 5 working days. This was due in the main to chair's annual leave.

This data is represented in tabular form below:

**Glossary**

DTC	Duty to Cooperate. The DTC person or bodies in Scotland are listed within the Management of Offenders Act 2005
ICR	Initial Case Review Part of the MAPPA Significant Review Process
MAPPA	Multi Agency Public Protection Arrangements
RSO	Registered Sexual Offenders – those who are required to notify the Police of their name, address and personal details and notify any changes subsequently
RSHO	Risk of Sexual Harm Order – places restrictions and obligations on someone who is behaving in such a way which suggests they pose a risk to a particular child or children generally. The person’s behaviour need not constitute a Criminal Offence and they need not have any previous convictions. If the person fails to comply with the requirements of the Order they can be returned to court and may be liable for up to 5 years imprisonment.
SCR	Significant Case Review
SOPO	Sexual Offences Prevention Order – A Court may make a SOPO at the time of dealing with certain Sexual Offenders or when the Police make a special application on account of the offender’s behaviour in the community. A SOPO can place restrictions and obligations on the offender and will require the subject to register as a sex offender. Failure to comply with the SOPO can result in the offender being returned to Court and may be liable for up to 5 years imprisonment
