

Parkhead Hub
Newsletter – August 2022

BAM Construction will be working in partnership with hub West Scotland and NHS Greater Glasgow and Clyde to deliver this project.

This is our second quarterly newsletter which aims to provide our neighbours with updates as we progress with the construction of the new Parkhead Hub.

Construction Update

Our construction works are well underway with most of the drainage and foundations complete, the structural steel frame is due to commence towards the end of August.

We have commenced with the formation of the permanent carpark and associated roads and aim to carry out drainage connections into East Wellington Street in the coming weeks.

Social Value Update

Since the last period we have progressed with a number of our social value projects including:

- Recruiting a Graduate Apprentice Quantity Surveyor has now begun employment on site
- Two local students who completed the projects' education programme have gained apprenticeships with our subcontractor Soundtex
- Our Staff Health & Wellbeing Programme has launched in partnership with NHS GG&C and HSCP, we have promoted Cycle to Work Week and held sessions with Andy's Man Talk around mental health. Upcoming, we are planning an Occupational Health Visit for the Subcontractor Operatives and support sessions around Mental Health
- The second education programme with St Andrew's and Whitehill Secondary Schools is due to launch in August 2022
- We received a score of 45/45 in our latest Considerate Constructors Audit Visit.

Andy's Man Club Talk with workforce.

Client: hub West Scotland

Quantity Surveyor: Currie and Brown

Principal Designer: Currie and Brown

Architect: Hoskins

Civil & Structural Engineer: AECOM

M&E Consultant: AECOM

Landscape Architect: ERZ

About BAM

BAM is one of the UK's largest construction services organisations. BAM operates from regional offices covering England, Scotland and Wales, and is active in construction, services engineering, design, facilities management, property development, and plant hire.

Environment and Community

Through the adoption of a responsible and proactive attitude to environmental issues BAM is committed to minimising any potentially harmful effects of its business activities on the environment and contributing to sustainable development through balancing its business aims with environmental considerations.

BAM will comply with, and where possible, exceed legal and other requirements to which it subscribes, in relation to its environmental aspects and engaging communities in the project.

Considerate Constructors

All BAM sites register with the Considerate Constructors Scheme. This means we are committed to being a good neighbour and to being clean, respectful, safe, environmentally conscious, responsible, and accountable. Our site is independently inspected to make sure we live up to these aims.

We try to work in a way that causes as little inconvenience as possible to our neighbours. We apologise for any unavoidable nuisance that may be caused during the work.

Contact Us

It is our intention to complete these works with minimal disruption. However, if you have any concerns, please contact our site staff who are available to assist.

Michael Hannan – Senior Site Manager - 07393797084
