Dear

**Engagement Event: 13th September 2018 on Glasgow City HSCP's Policy Development in relation to:
Self Directed Care and the allocation of resources to meet people's care needs
Reviewing Overnight Care Support alternatives to 'Sleepovers'**

I am pleased to invite you to an engagement event for service users, carers and their representatives to learn more about the policy development work being undertaken by Glasgow City Health and Social Care Partnership (GCHSCP) in the relation to the above strands of work.

GCHSCP is committed to ensuring individuals have the opportunity to live as independent a life as possible and to enjoy a good quality of life with the appropriate levels of care and support. We also have a responsibility to ensure our resources are targeted in a fair and transparent manner, in accordance with assessed need and in the most efficient and effective way. The areas of policy development aspire to further the achievement of those goals.

We would therefore very much welcome your participation in the engagement event, which will be held on **Thursday 13th September 2018, 10am-1230pm, Touchbase Business Centre/Sense Scotland, 43 Middlesex Street, Kinning Park, Glasgow, G41 1EE**

Background on the policy development topics were presented to the Integration Joint Board of GCHSCP in June 2018 and can be accessed at the weblink below (agenda item numbers 8 and 9):

<https://glasgowcity.hscp.scot/meeting/20-june-2018>

I should therefore be grateful if you could advise Stacey Marshall of your ability to attend. Stacey.marshall@ggc.scot.nhs.uk or 0141 314 6242. Places at the engagement event are limited and will be allocated on a first response basis.

Yours faithfully

Katrina Phillips
Head of Adult Services, North East
Glasgow City HSCP
